TRACK 1 | Traditional DURI Program

- Seeking Spring 2019 proposals from Purdue-West Lafayette faculty. Undergraduates will be supported to work on faculty-led teams to investigate problems in the strategic areas of global security, health and sustainability.

- Each project should bring together researchers across a broad range of humanities and STEM disciplines, involving 2 or more distinct academic disciplines (represented by faculty from different departments, preferably different colleges) and at least two undergraduate students.

- No faculty cost-sharing will be required.

- Interested faculty can submit abstracts for individual projects starting from the DURI website, https://purdue.edu/dp/duri, using their Purdue Career account credentials to log on.

- Faculty project supervisors will review all eligible student applications before making final selections. Each participating student will earn a $1,000 Spring semester fellowship from DURI.

More information is available on the DURI website. Faculty should direct any questions about the program to Peter Bermel pbermel@purdue.edu. Students with questions about the program should contact LeAnne Williams lewillia@purdue.edu.
