

About Us

We are technical storytellers. We transform complex stories into experiential marketing assets. Our five studios creatively integrate marketing, design, animation, models, exhibits and digital media. For over 25 years, we have been creating memorable stories for innovative global companies. Most of our client work is confidential and we are unable to display it publicly. To truly understand what we're all about... you'll just have to see it in person.

Description

We're looking for an intern who wants to gain more experience in their field of study while working alongside our development team, assisting in day-to-day tasks and project collaboration. The ideal candidate is self-motivated, independently thinking, highly-organized, and has a keen attention to detail, with a focus in interactive design and web development. Those who excel in our environment and exude these values will have the potential to take on more responsibilities and to advance.

Minimum Qualifications:

- Actively studying to achieve a web-related degree
- Experience with UI/UX design
- Minimum intermediate knowledge of HTML/CSS, Javascript, and JQuery
- Working knowledge of Adobe Creative Suite
- Working knowledge of PHP and MySQL preferred, but not required
- Self-motivated with the ability to work and make decisions independently
- Excellent communication, collaboration and problem-solving skills
- Solid verbal and presentation skills

Preferred Qualifications:

- Experience with LESS (CSS pre-processor)
- Experience with UI responsive design is a plus
- Experience with .NET is a plus
- Technically savvy; we use both Mac and PC platforms
