Summer Internship

Software Developer / Web Developer

Canaley Process Equipment, LLC is looking to hire a student in Computer Engineering or Computer Science for a summer internship. You will be writing code to develop Phase 2 of grapevine, proprietary software that manages the office. Knowledge of JavaScript is important. Experience using AngularJS and Node.js would be an asset.

Grapevine - Phase 2 will create an online filing cabinet. It will store and manage all quotes & orders with all their related files, drawings and emails. Task management related to filing orders needs to be developed and integrated into Grapevine. The application will need to consume REST API's and display the data effectively. Knowledge of SharePoint or other data management systems would be a plus.

You will be part of a two-person team developing this program. Our office is located at 120 N. Rangeline Rd, Carmel. Hours are 8 am – 5 pm. Project will start in mid-May and will last until early August. Pay will be between \$12-15/ hr based on experience.

Please submit your resume to sales@canaley.com. Please reference "Grapevine summer internship" in the subject line.
