MSC Apex Product Overview and Hands on Demos!

JOIN MSC'S SYSTEM DYNAMICS TEAM

The future of simulation is at your fingertips! Join us Tuesday March 28th for an exclusive product overview for MSC Apex. Gain hands on experience and try the dynamic, fully-integrated and generative structural analysis solution for yourself! We look forward to showcasing MSC Apex for you and getting your feedback.

MSC Apex:

- Easy to learn and fun to use. Can be self-taught in one day!
- Modern high-end graphics to enhance your FEA modeling experience.
- Direct modeling, geometry editing and mesh editing tools which allow you to manipulation your model effortlessly. Focus on engineering concepts and not software intricacies!
- Has a fantastic tutorial kit with over 44 example problems that can be used alone or to supplement existing course curriculum.
- Free student editions
- Has won numerous product awards, this is a first in CAE History!
