Location: POTR 234 (Fu Room)

Sibel Selcuk, Ph.D.

Executive Vice President

Heritage Research Group

The Heritage Group

Sustainability and Critical Thinking Now and For the Future

Abstract

Since 1980, Heritage Research Group (HRG) has helped The Heritage Group portfolio of companies, customers and partners evolve and adapt to an ever-changing marketplace. Today, HRG provides innovative products, processes and training that constantly improve the way our companies serve their clients by delivering sustainable solutions to address the myriad of challenges our industries face. By creating new technologies, our good, smart, hardworking people make a real difference turning big challenges into bigger opportunities to shape a brighter future for our customers, community, and the world.

Bio

Sibel Selcuk is the Executive Vice President for Research and Development at Heritage Research Group. As someone who has spent a career in R&D, Sibel understands the power of collaboration in sparking innovation. Prior to joining Heritage Research Group, Sibel worked for Monument Chemical and The Heritage Group (THG) for over 15 years in multiple research positions. She earned her B.S. in Chemistry from the Middle East Technical University in Turkey and Ph.D. in Macromolecular Science and Chemistry from Louisiana State University. She worked as a Post Doctorate Researcher at Indiana University Purdue University Indianapolis. Sibel is an active member of the American Chemical Society (ACS), serving diverse levels of leadership, and serves on several advisory boards across the industry.
