The Master of Architecture interdisciplinary focus can be extended even further through the pursuit of a dual-degree. Each field of study within the College of Architecture and Planning (CAP) provides an excellent foundation for earning a dual-degree. CAP offers dual-degree programs in a customizable platform that consolidates curricula in allied disciplines within the College including the Master of Urban Design (MUD), Master of Landscape Architecture (MLA), Master of Urban Planning (MUP), Master of Interior Design (MID), and Master of Science in Historic Preservation (MSHP). Additional dual

degrees are possible within the College of Business, College of Fine Arts, and College of Communication, Information, and Media as well as a multitude of other possible self-initiated dual-degrees. The required 12 credits of elective graduate courses may also be used to fulfill any M.Arch dual degree from our College or another College within Ball State University. The elective credits may also include ARCH 590 (Independent Study), ARCH 598 (Special Project in Architecture), and any graduate course at Ball State University approved by the graduate program director.
