Job Corner with Ms. Whelton, PE
If you don’t have a summer job opportunity there is still plenty of time! Check the CCO out for positions. I will continue to email and update opportunities after the semester ends.

This is most likely the last newsletter of the semester so I want to congratulate all of you, in particular our graduating seniors during such an unusual time. Congratulations to those of you who have opportunities lined up following graduation or for the summer. I know there are some of you who are still looking for opportunities. You may be tired of applying and not hearing back from companies or sad about the position you didn’t get after a great interview. Don’t give up-believe in yourself! If a company isn’t interested in you then it is best you didn’t get the position.

Some things to keep in mind while looking for opportunities that I found on LinkedIn from motivational speaker Brigette Hyacinth:

1. You can be the best candidate and still not get selected.
2. If you didn’t get the job, it was never meant for you.
3. You weren’t rejected, you were redirected.
4. Your value does not decrease based upon someone’s inability to see your worth.
5. Believe in yourself and keep trying, the right door will open for you.

“Not getting something you’ve always wanted is a chance to try out something new”. Tim Herrera recently wrote a great article for the NY Times on thinking differently about rejection (https://www.nytimes.com/2019/03/17/smarter-living/seeing-the-bright-side-of-missed-opportunities.html).

So don’t give up! There are still plenty of opportunities out there. Keep applying online, checking and applying to opportunities via the CCO, LinkedIn, and my emails. I’m here all summer if you need to talk about your resume, opportunities, etc. We can talk via email, over the phone, through zoom, or you could come to the office. Come up with backup plans-remember any experience is good experience in regard to internships on your resume. Have a great summer.

SEEE Finals Week Treats*
SEEE is hosting a destressing Finals Week event with free bagels and coffee from 12-4 on Tuesday (5/3). Come to POTR 360 for free treats! See attached flyer.
CAPS Stress Survival Workshops*
CAPS is offering drop-in workshops focused on finals week stress. Any student is welcome to attend, and no prior attachment to CAPS is needed. Refer to the attached flyer for more information.

Currier Scholarship*
- The Donald C. and Marion E. Currier scholarship is an opportunity for residents of St. Joseph County, IN who either is a resident or has graduated from a St. Joseph County, IN high school.
- The scholarship will provide up to free tuition, fees, allowance for books, and an off/on campus living stipend.
- This scholarship is renewable for up to six semesters.
- Apply by June 15 through the 2022 Currier Scholarship portal.
- For more information about the Currier Scholarship. See attached flyer.

Purdue JCPenney Suit-Up*
JCPenney currently has a ‘take an extra 30% off’ coupon on merchandise online and in store now until May 1, 2022. Text BOILERS to 67292 to receive an individual coupon code. Plan ahead for graduation, summer jobs and internships, a wardrobe refresh, or even fall career fairs and virtual interviews. See attached flyer.

LEED Green Associate Training
EEE students should understand that LEED is one professional certification. Earning a PE license in engineering requires considerably more education, knowledge and experience, and all EEE graduates are qualified to eventually earn a PE license, which is significantly more valuable. On occasion, an EEE student will ask about LEED. LEED is more within the domain of the Arch Engr group within Civil. The LEED Green Associate (GA) credential is the only entry level sustainability designation and shows employers and clients that you have certified knowledge in the green building industry. Most people can take a short course and pass the LEED certification test. As a courtesy, the following info is being provided. It is not required or necessarily endorsed. Contact info@leadinggreen.com if you have questions. See fees and Register for a live webinar or the on-demand recorded workshop completed anytime at your own pace at https://leadinggreen.com/online. Total cost for the webinar is $200, but students can use the coupon code green for $50 off. The below options (1-6) are all identical.

LEED Green Associate (GA) Training - Webinar and Online self-paced options:

Live webinars will be offered that can be streamed on any of the following dates:

1. May 14 2022 - 1:00PM - 5:30PM EST
2. June 2 2022 - 5:00PM - 9:30PM EST
3. July 9 2022 - 1:00PM - 5:30PM EST
4. August 20 2022 - 1:00PM - 5:30PM EST
5. September 10 2022 - 1:00PM - 5:30PM EST - OR -
6. On-demand recordings completed at your own pace

Stress Survival Workshops

CAPS is offering drop-in virtual workshops open to all Purdue students. In this space you'll learn strategies to manage stress and end the semester strong.

Thursday, April 28 3pm-4pm, Kate

Friday, April 29, 1-2pm, Margot

Monday, May 2, 1-2pm, Margot
Donald Clarence Currier was awarded a degree with distinction from the Purdue University School of Mechanical Engineering on June 15, 1926. Seventy-three years later, his wife Marion established The Donald C. and Marion E. Currier Scholarship in his memory to benefit students from St. Joseph County, Indiana. Students pursuing degrees from the College of Engineering at Purdue University in ANY engineering field, with the exception of Engineering Education, are eligible.

This generous scholarship will provide up to full tuition, required fees, an allowance for books, and on-campus housing or an off-campus living allowance. The scholarship, which typically commences when the student officially enters the Engineering program in his/her sophomore year, may be renewable for up to six semesters. Work/study semesters do not count toward this limit. The scholarship is suspended during work/study participation. The student may request funding for tuition, books and living stipend over a summer semester but are advised this will count as one full semester and reduce eligibility for future semesters accordingly.

Applications are due through the Community Foundation's online scholarship system by June 15 following the applicant’s freshman year, with funding commencing in the fall of their sophomore year. Upper-class students who can demonstrate outstanding academic achievement may submit for consideration an application for their junior and/or senior years.

ELIGIBILITY
Student must:

- have been a resident of St. Joseph County, Indiana during high school
- have graduated from a St. Joseph County, Indiana high school
- be accepted by the Purdue University College of Engineering and intend to pursue a full-time baccalaureate course of study. (Please note: Those pursuing degrees through the Purdue Polytechnic Institute are not eligible as this is separate from the College of Engineering.)
- Maintain a minimum cumulative grade point average of 3.0.

Eligibility Note: *Family members of those serving on the scholarship nomination committee or Community Foundation staff are deemed ineligible (defined as spouses, lineal descendants and their spouses, siblings and their spouses).

REQUIRED DOCUMENTS

- Complete the 2022 Currier Scholarship Application through the online scholarship system.
- Two letters of recommendation from people in leadership positions who know you well. These should be submitted through the online system and one must be school-related.
- Transcript from high school and your current college transcript indicating a 3.0 cumulative GPA at Purdue University. These should be uploaded into the online scholarship system.

APPLICATION SUBMISSION GUIDELINES

Additional information that has not been requested will not be accepted. Late or incomplete applications will not be considered. There will be no exceptions. Online application must be complete and submitted by 5:00 p.m., Tuesday, June 15, 2022. It is the responsibility of the student to ensure the application is complete and all materials are received on or before the deadline.
