EEE Registration Season for Fall 2022
Students who will be registering as an undergraduate student for Fall 2022 should have received a BoilerConnect email from their advisor, either Tammi Thayer or Patrick Tiffany, on 2/10/22 about Registration Advising appointment steps. (Those graduating in May were not included). Read and follow all instructions you received to prepare for your appointment!! Students not prepared will be required to reschedule their appointment!!

Timeline of Important Steps & Dates -
- **Now through March 18** - EEE Mentor meeting; priority timeline to avoid bottlenecks
- **Post-Mentor meeting through April 8** - EEE Advisor Registration appt with me; priority timeline
- **March 14** - Fall 2022 Schedule of Classes released
- **April 11, 5PM** - CRF Submit Deadline
- **April 20, 5PM** - Schedules for all students submitting the CRF released
- **April 21** - Open Registration begins; Scheduling Assistant opens.

EEE Student Experience Survey (Participation is Required)
The 2021 EEE Student Experience Survey is open and students received an email on 2/7/22 with instructions. Completion of this survey is required of all current students. All EEE students must participate to for Fall 2022 registration purposes; May graduation candidates must complete to graduate.

The survey will take no more than 15 minutes to complete. You will submit a current resume at the conclusion of the survey, so have an electronic copy of your resume ready. SURVEY LINK: https://purdue.ca1.qualtrics.com/jfe/form/SV_cTRAImohiNedoma

TA Survey for EEE Courses
Starting on Friday, Feb. 11, students in the following courses will receive a request to complete a survey about their TA: EEE 30000, CE/EEE 35000, CE/EEE 35500, EEE 380, and EEE 43000. The survey will be open from Feb. 11 - 23. We are doing this so we can get input from the students in the class. We don’t want to wait until the end of the semester because then it is too late to take corrective action, if needed. We will request that you complete the survey again at the end of the semester. EEE appreciates your willingness to respond.
Job Corner with Ms. Whelton, PE

If you don’t have a summer job opportunity there is still plenty of time! I have been sending emails with opportunities this year. Also take advantage of the lunches with professionals this semester on Tuesdays if you are available! I send an email every week with a paragraph or two on the background of the professional to those EEEs who are available per their class schedule. We have some great people coming up—EEE alumni, Google, Carhartt, and owners of environmental companies. I have been talking/talked with three upcoming speakers about potential job opportunities for EEEs. These lunches are a great way to network about job opportunities and get your resume out there.

College of Ag Career Fair: The date-Feb 23rd 9:30-3:30pm in person at the CoRec. You need to register appointments (via CareerFair Plus app). There are appointments still available and some companies have group appointments. There has been a good deal of interest in USDA—they will be at this fair! They have both group and individual appointments available when I checked this morning. More information (they will add to this page) is found here.

EEE isn’t listed so look for a comparable major-Natural Resources and Environmental Sciences, ENRE, etc. Students have interned at USDA, American Structurepoint, and Cargills in EEE. There are also EEE graduates employed fulltime at American Structurepoint. Land O Lakes and Hormel are two other companies EEEs have had success at. A senior design sponsor (and EEE alumni) works at Hormel. I would only go to this fair if you have a lot of interest in ag companies and have time or you are still looking for a job. There is a video on how to schedule meeting times with employers in CareerFair Plus here.

The Professional Practice Career Fair is on February 15th and is also a hybrid event. The in-person portion will run from 9am to 3pm in the CoRec. The virtual fair will be from noon to 8pm the same day. Although this career fair is primarily focused on co-ops there are usually internship and permanent opportunities available. Have you thought about co-op? It is a great way to gain substantial experience as a student. For co-ops, only freshman and sophomores are applicable. Internship opportunities generally are open to all students. Some companies only put their internships on this site so it’s another way to find out about opportunities! I will provide you more information on the process as we get closer to the fair. You can still sign up if you are interested—go here for more information. (Step 3 is where you add your information and resume to the database companies look at). Although registration has closed for the virtual fair, you can still attend info sessions and the in person career fair. They also post jobs outside the career fair so there can be opportunities at any time here. Please note this simplicity is different than the CCO simplicity so if you’re interested you will need to upload your resume and set up a profile—even if you do have a CCO account (which I hope you do).

The CCO is a great place to find both full time and internship related opportunities. I don’t post their opportunities. If you don’t have a CCO account or haven’t looked at it this semester, please go to here: https://www.cco.purdue.edu/#myCCO. They have significantly changed how their website looks and how you search for opportunities this semester. The jobs tab of LinkedIn is another great way to look for jobs or even using general job search engines. Don’t forget that research counts as relevant experience!

Looking at their calendar of events, a Lockheed Martin info session will occur on Feb 22nd from 5-6pm (virtual). We have had EEEs intern with this company and one is now a fulltime employee. Keep checking the CCO Calendar of Events as they add items fairly frequently. The CCO also has a workshop on Feb 22nd from 6-7pm (virtual) providing career advice for international students.

The Academic Success Center wanted to share some updates/information regarding the Academic Skill Workshops being offered this semester! We will be hosting-

POTR 360 - EEE Computer Room

Please do not turn off any computer in POTR 360 EEE Computer Room. If you have any issues, contact eee@purdue.edu.

EEE Travel Assistance Request Opportunity*

Looking for a funding opportunity to assist with costs associated with your Study Abroad, Global Experience, Service-Learning Project, Conference, etc.? Students seeking monetary assistance for travel costs associated with studying abroad, presenting research or other educational activities should use the attached form to validate their need for such support. Applicants should have an initial discussion concerning the intended program with Tammi Thayer.

Applications are due 1pm on March 15 to Dr. Nina Robinson, EEE Administrative Director, at nirobins@purdue.edu. Application form is attached.
**Undergraduate Researchers Needed**

Are you interested in undergraduate research? Dr. Lee has paid positions open for undergrads interested in environmental chemistry. Preference will be given to those with at least one more year at Purdue, as well as ample time blocks that can be committed to the experiments. If you are interested, email Dr. Youn Choi (choi226@purdue.edu) your resume, statement of interest, and current career goal trajectory.

**MyPurduePlan: Update Your ‘Plans’ tab**

It is imperative that you get to know and understand the requirements you must achieve to obtain your BSEEE degree!!! myPurduePlan is one resource to assist you. It is your responsibility to keep your MPP plans tab current, and failure to do so may result in your Registration appointment being cancelled.

- **MyPurduePlan (MPP)** - (Login to myPurdue > Destination: Graduation > myPurduePlan)
  - Worksheets tab - Review your Worksheet tab. Make note of anything that seems inaccurate to discuss with your academic advisor. Unsure of how to read the Worksheet? Go here.
  - Plans tab - Each semester it is your responsibility to update your plan per changes in registrations, repeat of courses, etc…. Need help on how to update/modify your customized Plan of Study (POS)? Go here.
  - Find tutorials for all MPP features here.

- **EEE Curriculum** - Go to (www.purdue.edu/EEE > Students > Undergraduate Programs > Academic Resources)
  - Plans of Study - follow the appropriate path per entry date to Purdue to view the 4-year POS and other policies.
  - EEE Selectives - A list of approved courses can be found here. Click on the Hyperlinks to get course descriptions, and see requisites and restrictions. You can also see a Recently Offered Course Reference list at the bottom of the page.

**ASC Workshops**

The Academic Success Center (ASC) has more workshops coming up. All workshops take place in Wiley C215. Attached is marketing for the entire workshop schedule, as well as, individual flyers for the ones with registration currently open. More information including workshop descriptions, registration links and the workshop request form can be found here on our website.

- Improve your Reading & Note-taking - registration is now open
  - February 16th @ 6:00pm

- Enhance your Study Skills - registration is now open
  - February 28th @ 5:30pm

- Maximize your Time - registration will open beginning of March
  - March 30th @ 6:30pm

- Create your Finals Game Plan - registration will open beginning of March
  - April 11th @ 5:30pm
  - April 19th @ 7:30pm

**Fulbright Week**

NISO is the National and International Scholarships Office. They are offering a bundled week of information sessions on the Fulbright Scholar Grant program, a distinguished award. The Fulbright U.S. Student program rewards thousands of dollars in student grants every year for research, study abroad, or teaching opportunities. Fulbright Week 2022 is February 14th through the 18th, in which they will be hosting help and information sessions on applying for Fulbright grants. All sessions will need to be reserved before attending. For information on the in person sessions or on the Fulbright program: https://www.purdue.edu/niso/fulbright/fulbrightweek.html

**CSPAN Maymester in Washington D.C.**

The Center for C-SPAN Scholarship & Engagements offering a 2-week study-away course in Washington, D.C. led by C-SPAN Founder, Brian Lamb.
Students will have the chance to meet and learn from D.C. change makers and influencers. In addition, this course offers a career-readiness mentoring program with the Purdue Alumni from Washington, D.C. This is an instructor-approved course, so students must apply for admission to the course.

The application to apply is currently open, while the deadline to apply is **February 21, 2022**.
Environmental and Ecological Engineering

Travel Assistance Request Form: Study Abroad, Global Experience, Service-Learning Project, Conference, etc.

Students seeking monetary assistance with tuition, fees, travel or related expenses associated with studying abroad, doing/presenting research or other educational activities including travel should use this form to validate their need for such support. Applicants should have an initial discussion concerning the intended program with the EEE Associate Director of Advising. **Applications are due to the EEE Administrative Director by relevant deadline.**

**Application Deadlines:**
- October 30 for support of winter or spring term experiences
- March 15 for support of summer or fall term experiences

Basic information:
- Name, PUID __________________________
- Semester/Dates of travel __________________________
- Location/Program/Conference Name __________________________
- Number of credits to complete (if applicable) __________________________
- Specific course equivalencies (list) __________________________
- Name all faculty sponsors (if applicable) __________________________

Personal Statement: On a separate sheet in 500 words or less, describe the planned experience and how it will help you to grow as an individual and future professional, as well as any benefits to clients or community groups. Include relevant details on how funding could eliminate financial obstacles to your participation.
- If the experience is not a course-based program (study abroad), answer each of the following in your statement and have the lead/supporting faculty member or instructor indicate approval with a signature.
  1. Describe the project or area to be studied. What are the main questions of study?
  2. Describe your learning objectives and goals? What do you hope to accomplish through the experience?
  3. Describe how you will show you have met your learning objectives — what products, reports, or other deliverables will you produce to show that you have met the objectives?
  4. Describe how your project relates to EEE, to material covered in other EEE courses, and/or to your professional goals.
  5. If credit for a course will be given, state how you intend to use this credit toward EEE degree requirements.
