EEE Newsletter
August, 2019

IN THIS EDITION:  * indicates attachment

• EEE Welcome Event - Save the Date! *
• EEE Main Office - Hours of Operation
• POTR Building - Hours of Operation
• EEE Computer Lab in POTR 360: Rules of Use *
• EEE Apparel
• Registration Troubleshooting
• Job Corner with Ms. Whelton, PE
• Job Tune Up Seminar by Ms. Whelton
• EEE Independent Study - Project in Sustainable Electronics*

EEE Welcome Event - Save the Date! *

• All EEE students, faculty and staff are invited to attend the EEE Welcome on August 27. Food and drinks will be provided. See the attached flyer.
  Thursday, August 27
  5:00 - 7:00pm
  STEW 218

EEE Main Office - Hours of Operation

• The EEE main office is located in POTR 364. Office hours are:
  o M-F 8am-5pm
  o Tammi Thayer’s hours: M-F 9am-4pm

POTR Building - Hours of Operation

• POTR building hours of operation are 6:00am - 10:30pm, 7 days a week.
• If doors are locked during these posted times, contact the Purdue Police non-emergency number at 49-48221.

EEE Computer Lab in POTR 360: Rules of Use *

• The EEE computer lab room is in POTR 360, next door to the main EEE office.
• POTR 360 is getting a facelift with NEW CARPET being installed this week. The room is temporarily closed during this time. Key pad entry code and instructions will be sent once the room is ready for use.
• EEE maintains this computer center for academic & social activities. Its use is a privilege reserved for EEE students and those enrolled in EEE courses to work, study, and access dedicated EEE computers. There are 12 desktop computers with internet access and a printer/scanner. The room contains additional tables, chairs, and whiteboards.
• Please read the attached agreement sheet which details privileges and responsibilities of using this room. In general, be respectful to others and the property. Always log off of computers before leaving the room. Do not lock a computer for later use. Do not move or alter any of the computer systems.
• If you wish to place items on the wall, ask in the EEE Office for appropriate tacky putty. (No tape or staples.)
• Use discretion when determining if to print and how many copies to print.
• Food/drink is allowed but use caution. A refrigerator & microwave are available for use.

EEE Apparel

• Looking for cool EEE attire? Visit the Freckles website where you can shop various EEE shirts, sweatshirts, hats, etc.
  http://shop.frecklesgraphics.com/purdue_eee/shop/home
Registration Troubleshooting

- **Waitlists:** If you are on a waitlist for a course in myPurdue the waitlist feature closes at 5PM August 16 (always 5PM the Friday before a term begins). All the waitlists will be purged at 5PM. Students may still add classes to their schedule through the 1st full week of the term if a seat becomes available but you must monitor to catch open seats. Check in myPurdue (use Look Up Classes) and Scheduling Assistant to find if there is space.
- **Having trouble registering? Need an override for a class?** There are many resources on the EEE Registration Tools page, such as instruction links for Scheduling Assistant:
  - Scheduling Assistant - How to Submit Registration Error Override Request
  - Scheduling Assistant - How to Register using Scheduling Assistant
  - Scheduling Assistant - How to Register a specific CRN
- The Registrar page also has links for most common registration issues at https://www.purdue.edu/registrar/currentStudents/index.html

How to Schedule An Appointment with Tammi Thayer *

Attached are instructions for students to navigate making appointments. Advisors and service offices across campus use BoilerConnect for making appointments, so these instructions are generalized.

Please note:
- The EEE office has a sign in kiosk at the front reception desk. When visiting EEE for your appointments you will either swipe your PUID card or enter your PUID # at the kiosk.
- There is a link to BC in my signature block and on a few EEE webpages for Current Students.

Job Corner with Ms. Whelton, PE

This section is prepared for the newsletter by Ms. Margaret Whelton, PE. She is the EEE Manager of Industrial Experience. The responsibilities of this position include working with industry to secure internships, co-ops, and full time job opportunities for students; developing real world senior design and research projects; and facilitating partnerships between industry and Environmental and Ecological Engineering. She has twelve years of experience as a practicing environmental engineer prior to becoming part of EEE. She is a registered professional engineer in Indiana, Virginia, and Alabama.

There are several ways we will notify you about job opportunities or networking opportunities.
- **Any opportunity for EEEs that we know of will be posted on our website in the CurrentStudents section.** In the right side bar there is the EEE Full Time Jobs for permanent positions and EEE Internships for internship positions. These links are updated as we learn of positions, so please check them regularly.
- **Another way we let EEEs know about opportunities is on social media.** Like “Purdue University EEE” on Facebook if you haven’t already.
- **Some companies contact the CCO (Center for Career Opportunities) directly about job opportunities.** You should create your myCCO account and upload your resume. We will not post opportunities that are given on the CCO site since they are already available to you. There are many opportunities for EEEs through the CCO and we encourage companies to post jobs for EEEs wherever they are most comfortable. More information on and how to sign up for myCCO is here: https://www.cco.purdue.edu/#myCCO
- **Throughout the school year there may be emails sent out in regard to networking opportunities or jobs.** If you receive an email from Ms. Whelton it will be in regard to job opportunities or other opportunities for you to connect (and potentially land a job) with companies. Please pay attention to these emails. Networking opportunities may also come from other EEE faculty and staff.
- **Career fair season is starting soon and Industrial Roundtable is right around the corner.** To prepare for this and other job-oriented events, EEE is sponsoring a seminar where you will learn (and can have your questions answered) about resumes, interviews, networking, and more. The “Job Tune-Up” seminar will be Thursday September 5th at 3:00pm.
- **Speaking of your resume, this is a great time to update it with your summer experiences, current GPA, and current coursework.** It is good to get in the habit of updating your resume at the beginning of every semester before you get inundated with schoolwork.
- **The CCO encourages students to complete the CCO internship survey for their summer internships.** (Those who had spring internships are welcome to enter the details of those experiences, too.) The link is here: https://www.cco.purdue.edu/Students/Post-GradDataAndSurveys#InternshipSurvey. The data CCO aggregates from these surveys helps students and departments to see what internship opportunities and salary ranges exist, and allows students to rate the experience. It also helps employers stay competitive by providing them with data on where students go for internships and what types of salary ranges to expect.
Job Tune Up Seminar by Ms. Whelton

- Thursday, September 5 at 3:00-5:00pm; Room TBD. Come and go as needed.
- Led by Ms. Meg Whelton. As an environmental engineer who has worked in your field, she will give overall tips and advice in addition to answering your questions! There will also be a panel of EEE undergraduate students to discuss their past work experiences and how they obtained their jobs.

EEE Independent Study - Project in Sustainable Electronics *

- Prof. Inez Hua and Prof. Hua Cai are looking for students to assist with a project this fall term. This project will consist of refining and using a system dynamics model to characterize stocks and flows of electronic devices (such as cell phones) in U.S. households. Several positions are available, and students will work together as a coordinated team to meet project objectives. Students may earn independent study credit for this project.
- Required qualifications: senior undergraduate or first-year MS students, majoring in EEE or related fields, cumulative GPA >3.0. Preferred: experience with system dynamics modeling methods, and experience with models such as STELLA.
- For additional info, see attached and contact Prof. Hua (hua@purdue.edu) or Prof. Cai (huacai@purdue.edu).

EEE Hourly Position - Organizing Sustainable Manufacturing course materials

- Prof. John W. Sutherland is looking for a student(s) to assist with a project for the fall term. The project will consist of organizing sustainable manufacturing course materials. This will be a paid hourly position; up to perhaps 20hrs/week.
- Required qualifications: senior undergraduate or first-year MS student, majoring in EEE or related fields, cumulative GPA >3.0. Preferred: experience in manufacturing.
- If interested, send resume to Prof. Sutherland (jwsuther@purdue.edu) and Jill Wable (jwable@purdue.edu).

EEE Faculty Research

- Interested in pursuing research with EEE faculty? Students are welcome to reach out to individual faculty that they feel best matches with their interests. The best resource to review faculty research paths is at https://engineering.purdue.edu/EEE/Research. Screen shot below.
- On this page you will notice 2 blocks labeled ‘Classic Environmental Engineering’ and ‘Industrial Sustainability.’ Click on these to see further explanation of subareas within these paths. It may be best to first decide if your interests fall within ‘Classic’ or ‘Industrial’, then reach out accordingly. Names of the faculty (hyperlinked) who work in these areas are listed, and you can learn more about each of their specific areas of research, publications and contact info by clicking on each name.
- If you are approved to work with someone, there are specific steps to take to enroll a course if you wish to establish course credit, or you can work for hire. The EEE independent research/project course number is EEE 49800.
**Student Employment Job Fair**

- On-campus Purdue employers will be present to recruit students for fall 2019 job openings. Prospective candidates can get a head start on their job search by actively reviewing current job postings.
  - Wednesday, August 28, 2019
  - 1:00 - 4:00 PM
  - Krach Leadership Center Lobby

**Study Abroad Fair**

- Wednesday, August 28
- PMU South Ballroom from 10am-3pm

**Foreign Language Placement Testing** *

- Foreign Language Placement Testing is underway for the following languages: Mandarin Chinese, French, German, Italian, Japanese, Korean, Latin, Russian, Spanish, Spanish for Heritage Speakers. Exams last 30-60 minutes.
- The FLPT lab is testing Wed.-Fri of this week (8/14-16) and Mon.-Tues. 8/19-8/20. Students should report to Stanley Coulter, Room 231. Students should bring their PUID and a FLPT Permission form signed by their advisor.
- Results are provided at the end of the exam, and following the conclusion of testing each night we will load students' placement scores to Banner, providing the prerequisite for their placement course. Students earn departmental credit for the courses they skip in placement by successfully completing their placement course with a C- or higher on the WL campus.
- See attached flyer, which includes the November 2019 testing dates also.

**MyPurduePlan: Update Your ‘Plans’ tab**

Upon entry to EEE all students receive a personalized plan of study from Tammi. It is your responsibility to keep the Plans tab of MPP up to date on a semesterly basis - no exceptions - per changes in registrations, future plans, repeat of courses, etc. Confirm that the courses you registered for fall match the courses listed on your MPP Plans tab. If the courses do not match, update your plans tab to match your registered courses. Failure to have a customized and up to date plan may cause a delay in your future registrations. Review your POS, run an audit, etc. If you feel that there is an error, make an appointment with Tammi in September to review.

It is imperative that you know and understand the requirements you must achieve to obtain your BSEE degree!!! Here are links to MPP tutorials -

Finding myPurduePlan - Login to myPurdue > Destination: Graduation > myPurduePlan

- Worksheets tab - Review your Worksheet tab. It should be completely accurate. Make note of anything that seems inaccurate to discuss with me. Unsure of how to read the Worksheets tab? Go to https://mediaspace.itap.purdue.edu/media/myPurduePlan+Worksheet/1_gytsywcz
- Plans tab - Each semester it is your responsibility to update your plan per changes in registration plans, repeat of courses, etc. Need help? Go to https://mediaspace.itap.purdue.edu/media/myPurduePlan+Plans+Tab/1_0mzzf67i
- Find all tutorials on MPP features at https://www.purdue.edu/registrar/currentStudents/myPurdue/index.html

Finding EEE Curriculum resources - Go to www.purdue.edu/EEE > CurrentStudents > Academic Resources

- > Plans of Study - follow the appropriate path per entry date to Purdue to view the standard 4 year plan of study and other policies.
- > EEE Selectives - Hyperlinks to course descriptions ease the process of reviewing for course content, along with investigating any requisites and/or restrictions. Table 1. Universally Approved - includes courses that are fundamental to environmental engineering. These courses should be given top priority as you consider your future EEE Selective package.
- > EEE Registration Tools - page developed to be a “one-stop shop” that contains links to many registration tools and resources from across campus.

**Make the Most of College: Gallup-Purdue Index**

- Purdue has so much to offer! Wondering how to prioritize what will make the most impact on your future? The Gallup-Purdue Index (GPI) was formed from a recent survey of more than 30,000 U.S. college graduates.
Refer to the Student Guide to Creating a Successful College Experience: This guide was designed to help college students get the most out of the college experience based on the GPI results. One excellent resource to consider your options is GRIT+ programs for experiential learning - https://engineering.purdue.edu/Engr/Academics/Undergraduate/grit.

**Academic Success Center (ASC) & Supplemental Instruction (SI) **

The ASC offers a collection of services and programs designed to help Purdue students be successful in the classroom. Be proactive and review available resources now. Don’t wait till things get difficult to manage. See ASC’s offerings at https://www.purdue.edu/asc/index.html. There are multiple ASC flyers at the end of this newsletter.

- LOCATION: WILEY HALL | Visit the Academic Success Center in Wiley Hall C215.
- HOURS | The ASC’s academic year hours will be 8AM-8PM Monday-Thursday, and 8AM-5PM Fridays.
- CONSULTATIONS | Get tailored support on study strategies, time management, test-taking strategies, and other academic success topics in a 1-on-1 meeting with an academic consultant. Sign up for an appointment through BoilerConnect.
- PEER SUCCESS COACHING PROGRAM | Our Peer Success Coaching program is perfect if you are looking for additional support and accountability in working towards achieving your academic, social, and/or personal goals during the semester. Apply for a PSC online at www.purdue.edu/psc. Contact AcademicSuccess@purdue.edu for more information.
- SUPPLEMENTAL INSTRUCTION | Supplemental Instruction (SI) offers free weekly, peer-led study sessions in challenging courses. The study sessions are led by SI Leaders who are undergraduate students who took the class and know what it takes to succeed in it. SI Leaders facilitate sessions using fun and collaborative activities so you can learn and apply the course material. To get the most benefit, you should attend SI early in the semester and continue coming often. You can find the SI Schedule online at www.purdue.edu/si or on the PurdueGuide app.
- WORKSHOPS | The ASC offers free workshops available to all students on topics including time management, overcoming procrastination, and effective study strategies. The schedule is available under the Additional Resources tab, no pre-registration required! Interested in setting up a workshop for a student group? Contact AcademicSuccess@purdue.edu from more information.
- ONLINE RESOURCES | Want to know how to calculate your GPA, find a template on creating a study plan, or look up time management apps? We have these resources and more available for you 24-7 on The ASC website under the Additional Resources tab.
- FIND TUTORING RESOURCES | Did you know there are more than 15 different tutoring and academic support programs offered across campus? Find the ones that support your classes using our tutoring database, under the additional resources tab.
- QUESTIONS? | Email academicsuccess@purdue.edu, call 765-494-4700, or visit Wiley C215.

**Safety - All Hazards Training**

- All-Hazards Awareness Training is offered to the Purdue community through in-person sessions and online through Blackboard Learn or WebCert websites. This training provides reminders on what constitutes an all-hazards emergency event and how faculty, staff and students in the classroom or elsewhere on campus should react in such a situation. Emergency preparedness officials explain how the campus community receives emergency notifications through the multi-layered Purdue Alert system, what “shelter in place” means and how to respond when they see the phrase in alerts sent out; evacuation procedures; what they can do to prepare; and available tools and resources.
  - Blackboard Learn - enter your Purdue career account, click “Browse Course Catalog.” In the “Search Catalog” section type in “All-Hazards Awareness Training” and “enroll” in the course.
  - WebCert - logon with your career account to review the All-Hazards Awareness Training Presentation then take the assessment as a quick review.
- View Key Emergency Preparedness Resources at Emergency Preparedness website.
- Recent enhancements to campus emergency notification are listed at www.Purdue.edu/EHPS.
New student? Returning student?
Join us for good food and conversation.

TUESDAY, AUGUST 27
5 - 7 PM  STEW 218
EEE Computer Lab/Student Room (Potter 360) Agreement

The EEE Student Room in Potter 360 (hereafter referred to as 360) is a place set aside for EEE students and students in EEE courses to work, study, and access dedicated EEE computers.

Use of 360 is a privilege and students are expected to treat the room and other students in the room with respect.

Use
360 is restricted to EEE students and students in EEE courses. It is NOT a general-purpose room for Purdue students.

While it does not have the atmosphere of a library, students should be considerate of others attempting to work and keep noise to a minimum.

EEE students can invite other Purdue engineering students to work with them in 360 for the purpose of group work or projects. EEE students who host non-EEE students are responsible for their guests.

IMPORTANT:
360 is secured by a keypad whose code will change every semester and should NEVER be distributed to anyone except at the discretion of EEE faculty and staff. Students who give out the key code may have their 360 access privileges revoked. DO NOT prop open the 360 door.

Books
The books are for student use, however, please do not remove from POTR 360.

Computers
The eleven computers (PC01-08 are running Windows 10, PC 09-11 are running Windows 7) are available for general use by EEE students. However, school work or EEE-related business takes priority and students using the computers for general purposes (web browsing, email) should log off if there is not another computer free. This is not a general use computer lab – we do monitor the computers and only EEE students and those in EEE classes should be using the computers.

Printing
The use of 360 printer is limited to school work and EEE-related business. It is currently a free resource offered by EEE. Please respect this free resource (and the environment) by printing only what is necessary. We will monitor print use; excessive use or use by students who are not EEE students or in EEE courses may result in page charges.

SEEE Office Space
The desk and file cabinet labeled for SEEE is for SEEE officer use only. The microwave and refrigerator are for use by all EEE students, but provided and managed by SEEE.
Quick Reference for Students
Requesting an Appointment

• Login in to BoilerConnect at purdue.campus.eab.com using your Purdue username and password
• On the far right side of your Student Home screen, click on the blue Make an Appointment button:

![Make an Appointment button](image)

• On the Schedule Appointment screen, you will be asked a series of questions to explain why you would like to meet with someone. To begin, from the first drop down box, select the option that represents what you want to do.
• Depending on what you choose, you may have just one option in the next drop-down box, or you may have several options to choose from.

Schedule Appointment

What type of appointment would you like to schedule?

- Academic Advising

Please choose from the following options

- -- please choose one --
• In the next drop down box, provide additional detail on the reason for your request. The options you see here will be based on the selection you made in the first two drop down boxes.

Please choose from the following options and click "next."

-- please choose one --

• Click on **Next**

Next ▸

• The question about departments will populate with any department that offers the service you just chose. In some cases, for example if your college has its own career advising unit, you could see two options. In many cases you will simply make the same choice that you made when you answered the second question on the previous page.

Which department would you like to meet with?

-- please choose one --

• The next question will ask about staff members. In some cases there will only be one option; other times there may be no names listed in which case you simply leave this box blank and click on Next.

Please choose a staff member or leave blank for first available.

Any Staff

*If you don't have a preference, just click Next.*
• Click on one of the blue boxes indicating morning or afternoon times on a particular day, and then choose the actual appointment time from the options given and click Next.

• If none of the available times for the week being displayed will work with your schedule, click on the arrow in the blue icon to move to the next week’s list of available times.

• If you can’t find a time that works, the department might have Drop-in times available, so click on the View Drop-in Times button in the yellow section of the screen.

Don't see the time you're looking for? View Drop-in Times

You cannot sign up for drop-in times on BoilerConnect but this will tell you when to visit the department. If nothing appears, then there are no drop-in times available for this particular service at this location.
• On the **Schedule Appointment** screen, review the **Appointment Details** because there may be special instructions there. If there is anything else you would like to include in order to help the staff member prepare for your appointment, enter it in the **Additional Details** box.

![Appointment Details](image)

• Unless you uncheck the boxes, you will receive **email and text reminders** for your appointment. If there is no cell phone listed or the number is incorrect, please update it here. The reminder email is sent out 24 hours before the appointment, and the text reminder is sent out one hour prior to the scheduled appointment.

- [ ] Send Me an Email
- [ ] Send Me a Text

Please provide your mobile number

Phone Number

• Click on **Confirm Appointment**

![Confirm Appointment](image)

Until you do this, your appointment has not been scheduled! BoilerConnect will send you a confirmation email confirming your appointment, so if you do not receive this message, log in to ensure the appointment was scheduled.
• Your appointment will now appear on your Student Home page under the Upcoming Appointments section on the right side of the screen.

• If you need to cancel an upcoming appointment, click on the appointment under “Upcoming Appointments” on your home page. A pop-up box will appear; click on “Cancel My Attendance” in the bottom left.

Keep in mind that appointments cancelled less than 12 hours prior to the start of the appointment will be considered a no-show. It is still preferable that you cancel an appointment even at the last minute rather than not showing up, but if you have three no-shows in any 30-day window, you will need to contact your academic advisor before you are able to schedule any future appointments via BoilerConnect.
In the United States, an estimated 3.3 million tons of electronics reach End-of-Life (EOL) per year. Global production is much higher. Despite the economic value of electrical and electronic equipment, materials recycling and recovery represent only a fraction of the collection yield at the EOL. Currently, much of the flow of electronic waste ends up as municipal solid waste or in unregulated facilities. In addition, a large fraction of certain types of devices, such as mobile phones, end up “in storage” in households. Recent studies have demonstrated a variety of precious, rare earth, and critical elements in electronics.

This project will consist of refining and using a system dynamics model to characterize stocks and flows of electronic devices (such as cell phones) in U.S. households. Preliminary results from this model indicate that almost 50% of mobile phones purchased in the United States will be “in storage” in households. The collective value of the phones in storage is estimated to be > 1 billion dollars. To capture that value, the phones must be transferred out of storage and into a recovery process.

Several positions are available, and students will work together as a coordinated team to meet project objectives. Students may earn independent study credit for this project.

**Required qualifications:** senior undergraduate or first-year MS students, majoring in Environmental and Ecological Engineering or related fields, cumulative GPA > 3.0. **Preferred:** experience with system dynamics modeling methods, and experience with models such as STELLA.

For additional information, please contact Professor Inez Hua (hua@purdue.edu) or Professor Hua Cai (huacai@purdue.edu).
FOREIGN LANGUAGE PLACEMENT TESTING

Mandarin Chinese    Korean
French              Latin
German             Russian
Italian           Spanish
Japanese     Spanish for Heritage Speakers

Fall 2019 Testing:

Wed. 8/14, Thurs. 8/15, Fri. 8/16, 6 PM
Mon. 8/19, Tues. 8/20, 6 PM
Wed 11/6, Thurs. 11/7, Fri. 11/8, 6 PM

Stanley Coulter Hall Rm. 231

Information on Testing:
- Bring to exam: FLPT Permission Form (contact advisor), Purdue ID, and additional Photo ID
- Most exams take ca. 30 mins to complete, Japanese and Mandarin Chinese typically last ca 60 mins.
- Results provided at conclusion of exam
- $35 charge for each language exam following testing through Bursar’s account. Pell Grant eligible students, graduate students, faculty and staff are exempt.
- For questions and information on placement in all SLC Languages including American Sign Language, Ancient Greek, Arabic, Hebrew, and Portuguese, please visit the SLC Placement page

Purdue University
School of Liberal Arts
SCHOOL OF LANGUAGES AND CULTURES

FOREIGN LANGUAGE PLACEMENT TESTING

Mandarin Chinese    Korean
French              Latin
German             Russian
Italian           Spanish
Japanese     Spanish for Heritage Speakers
How can the Academic Success Center Help You?

**CONSULTATIONS** | Get tailored support on study strategies, time management, test-taking strategies, and other academic success topics in a 1-on-1 meeting with an academic consultant. Sign up for an appointment through BoilerConnect.

**PEER SUCCESS COACHING PROGRAM** | Our Peer Success Coaching program is perfect if you are looking for additional support and accountability in working towards achieving your academic, social, and/or personal goals during the semester. Apply for a PSC online at [www.purdue.edu/psc](http://www.purdue.edu/psc). Contact AcademicSuccess@purdue.edu for more information.

**SUPPLEMENTAL INSTRUCTION** | Supplemental Instruction (SI) offers free weekly, peer-led study sessions in challenging courses. The study sessions are led by SI Leaders who are undergraduate students who took the class and know what it takes to succeed in it. SI Leaders facilitate sessions using fun and collaborative activities so you can learn and apply the course material. To get the most benefit, you should attend SI early in the semester and continue coming often. You can find the SI Schedule online at [www.purdue.edu/si](http://www.purdue.edu/si) or on the PurdueGuide app.

**WORKSHOPS** | The ASC offers free workshops available to all students on topics including time management, overcoming procrastination, and effective study strategies. The schedule is available under the Additional Resources tab, no pre-registration required! Interested in setting up a workshop for a student group? Contact AcademicSuccess@purdue.edu for more information.

**ONLINE RESOURCES** | Want to know how to calculate your GPA, find a template on creating a study plan, or look up time management apps? We have these resources and more available for you 24-7 on The ASC website under the Additional Resources tab.

**FIND TUTORING RESOURCES** | Did you know there are more than 15 different tutoring and academic support programs offered across campus? Find the ones that support your classes using our tutoring database, under the additional resources tab.
Do you want to learn strategies to help you study more effectively? Do you need assistance in sticking to a weekly schedule? Do you want to get connected to campus resources?

PEER SUCCESS COACHING PROGRAM

Work 1-on-1 with a Peer Success Coach who can help you navigate personal, academic, and social concerns as you navigate life at Purdue!

ACADEMIC SUCCESS WORKSHOPS

A great way to jump-start the process of achieving your goals. These 50-minute sessions cover skills and help students learn in a low-pressure, group-learning environment. Registration for fall workshops opens during BGR.

Topics covered: Time management, smart studying, motivation & procrastination, Finals Prep

TEST DRIVE

Not sure what to expect for your first large exam in college? Come for a test drive!

Students can register to take a practice exam in select courses. The mock exam has the same testing environment, time limits, and other factors as the real test so you can plan and adjust your studying to be prepared before the first round of exams.

Dates and Registration for Test Drive opens during the first week of classes.
