

NAVIGATING THE REGULATORY PATHWAY FOR MEDICAL DEVICES: A CONVERSATION WITH THE FDA, CLINICIANS, RESEARCHERS AND INDUSTRY EXPERTS

**FRIDAY, FEBRUARY 26, 2021
10AM - 3PM EST
VIRTUAL CONFERENCE**

Please join us for the Indiana Clinical and Translational Science (CTSI) Virtual Retreat hosted by Purdue University.

KEYNOTE SPEAKER Dr. Jeffrey E. Shuren, MD, JD

Director of the Center for Devices and Radiological Health (CDRH) at the Food and Drug Administration (FDA)

In his leadership of CDRH, Dr. Shuren is responsible for the review of FDA-regulated medical devices and diagnostics in the United States and for helping to facilitate medical device innovation.

BROUGHT TO YOU BY:

Weldon School of
Biomedical Engineering

AGENDA INCLUDES:

Presentations and panel discussion with FDA experts and industry leaders

Breakout conversations with key leaders at the FDA, clinicians, university researchers and industry experts on the following topics:

- Pediatric Medical Devices
- Diagnostics and Disease Detection
- Digital Health and Wearable Devices
- Invasive and Implantable Devices
