ENGR 596: Graduate ENGR Communications

For CoE graduate students who want engineering communication credits on their transcripts

Here's how the course works:

**Register for ENGR 59600 at myPurdue**

**Brief Course Description**
Customize an engineering communications course by choosing the CoE workshops most relevant to your current needs. See [http://www.engineering.purdue.edu/gradworkshops](http://www.engineering.purdue.edu/gradworkshops) for workshop descriptions. Questions? Contact Joanne Lax (jlax@purdue.edu).

**Get Instructor (jlax@purdue.edu) approval to take the course**

**Register at [http://www.engineering.purdue.edu/gradworkshops](http://www.engineering.purdue.edu/gradworkshops) for 16 hours of complete workshops**

**Complete those workshops during the semester to receive a "P" & 1 credit hour**

**Earn up to 2 more credits by registering later for 32 different workshop hours**

*All engineering communications workshops and NSF GRFP writing workshops are eligible. Note that, as in the past, any of these workshops also may be taken without registering for the ENGR 59600 course.*
