

# MS(E) + MBA DUAL DEGREE

## MS in Engineering / Master of Business Administration (MBA)

The MS Engineering and MBA Dual Degree allows students the opportunity to strengthen both their technical and business skills and fast track to one of the most upwardly mobile and profitable career paths. Students can earn their non-thesis, or professional, master's degree in engineering from Purdue's world renowned College of Engineering plus their MBA from the university's top-ranked Krannert School of Management in just two years - a year less than if they earned the degrees separately. Students can choose to study at one of several engineering schools before transitioning toward pursuing their MBA with more than 100 management electives to choose from.

**DEGREES EARNED**

Master of Science  
in Engineering and  
Master of Business  
Administration

**LENGTH:**

Two-years in total:  
MS(ENG) - 1 Year  
MBA - 1 Year  
Classes Begin in August

**FORMAT:**

Full-Time, 44 MBA credit hours  
+ 15 credits shared  
+ additional MS(ENG) credits  
(varies by Engineering school)

**MS(E) FEES:**

Visit your engineering program of  
interest to learn details regarding  
costs.

**MBA PROGRAM FEES:**

*In-State: \$1,048.58 / credit*  
*Out-of-State: \$1,327.38 / credit*  
*International: \$1,327.38 / credit*  
*\*All fees subject to change*

**Program Highlights**

- Unlike other professional master's degree programs in engineering that provide up to nine credit hours of management courses, this dual degree offers a full MBA.
- Students can personalize their experience. For example, students can complement classroom instruction through independent studies or participation in experiential projects.
- The streamlined structure and time frame of the program saves students the investment of time and cost when compared to the traditional approach of earning the two graduate degrees.
- Collaborative opportunities with Purdue's Foundry, Discovery Park and other campus incubators and innovation centers.

**Participating Engineering Units**

- School of Aeronautics and Astronautics
- Weldon School of Biomedical Engineering
- Davidson School of Chemical Engineering
- Lyles School of Civil Engineering
- Environmental and Ecological Engineering
- School of Industrial Engineering
- School of Nuclear Engineering
- Engineering Management Professional Masters

*Economist*

*"Krannert is a business school within a very successful and rich engineering school. It's perfect match because there's a lot of people out there with a lot of products and brilliant ideas in mind, but they don't necessarily have the business acumen or business background."*

Juan Zubillaga, '18 MBA
