

HYDRAULICS/HYDROLOGY POSITION

The Lyles School of Civil Engineering at Purdue University invites applications for a tenure-track faculty position at all ranks, with a preference however for the level of assistant professor. Purdue University seeks to attract exceptional candidates with interests and expertise in the general fields of hydraulics and hydrology. Candidates with research and teaching interests in one or more of the following topical areas: laboratory studies in hydraulics and hydrology, coastal engineering, large-scale surface and/or subsurface hydrology, environmental and ecological hydrologic systems and their optimization, are especially encouraged to apply. Successful candidates must hold a Ph.D. degree in civil engineering or a closely related discipline and demonstrate excellent potential to build an independent research program at the forefront of their field, as well as potential to educate and mentor students. The successful candidate will conduct original research, will advise graduate students, will teach undergraduate and graduate level courses, and will perform service both at the School and University levels. The potential for interdisciplinary collaboration with the broader Purdue University research community such as the Purdue Water Community (website: <http://www.purdue.edu/discoverypark/water/>), would be an asset. Candidates with experience working with diverse groups of students, faculty, and staff and the ability to contribute to an inclusive climate are particularly encouraged to apply.

The School of Civil Engineering at Purdue University has experienced significant growth in the past decade and has a strong faculty core engaged in all areas of civil engineering as well as significant interdisciplinary efforts across campus, with other academic institutions, and industrial partners. The College of Engineering at Purdue is currently undergoing extensive growth, with over one hundred faculty position openings being projected over the next five years. For a detailed description of research activities see <https://engineering.purdue.edu/CE/Academics/Groups/Hydraulics>

Submit applications online at <https://engineering.purdue.edu/Engr/AboutUS/Employment/Applications>, including curriculum vitae, teaching and research plans, and names of three references. For information/questions regarding applications contact Marion Ragland, Faculty Recruitment Coordinator, College of Engineering, at ragland@purdue.edu. Review of applications will begin on September 29, 2014 and will continue until position is filled. A background check will be required for employment in this position.

Purdue's main campus is located in West Lafayette Indiana, a welcoming and diverse community with a wide variety of cultural activities and events, industries, and excellent schools. Purdue and the College of Engineering have a [Concierge Program](#) to assist new faculty and their partners regarding dual career needs and facilitate their relocation.

Purdue University is an EEO/AA employer fully committed to achieving a diverse workforce. All individuals, including minorities, women, individuals with disabilities, LGBTQ, and veterans are encouraged to apply.
