

## **Working Remotely on the Four Unix Machines**

### ***To Get a Graphical UNIX window from the PC's in the Computer Lab***

- 1) From the desktop – in the network folder, open 'Tools CDE'
- 2) Login as normal
- 3) At an Xterm window in the CDE session, use the 'ssh -X' command to one of the 4 Herrick servers

ssh -X cohen

ssh -X fontaine

ssh -X herrick

ssh -X Bernhard

- 4) At the UNIX prompt on the new server, type 'xterm' (no quotes)
- 5) This should open an Xterm windows on your screen. Use this window for any graphical application you wish to run
