

Engineers do all sorts of amazing things to make the world a better place.

## STEP 1: IDENTIFY A PROBLEM YOU WANT TO SOLVE

What problem would you like to solve for yourself and others?  
Write it on the body.

Keeping my room clean!

Keeping siblings out  
of your room!

Cheap and clean  
energy!

Ending world hunger!

Cool and safe mode  
of transportation!

## STEP 2: NAME TWO OF YOUR INTERESTS

Which of your interests will help you solve the problem?  
Write one on each arm.

sports

cooking/baking

photography

reading

music

computers

fashion

animals/nature

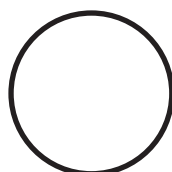

drama

building

art

gardening

## STEP 3: DECIDE HOW YOU WILL THINK LIKE AN ENGINEER

How can you think like an engineer to solve the problem?  
Write it on the head.

failing

iterating

collaborating

communicating

analyzing

testing

making

asking

creating

optimising

imagining

improving

## STEP 4: WHO ARE YOU? Share your engineer's story!
