

TO: The Faculty of the College of Engineering

FROM: The Faculty of the School of Mechanical Engineering

RE: MSPE 29701 Computer Modeling for Motorsports Title and Course Description Change

The Faculty of the School of Mechanical Engineering has approved the following change. This action is now submitted to the Engineering Faculty with a recommendation for approval.

From:

Title:

Computer Modeling for Motorsports

To:

Title:

Intro to Computer Aided Design for Motorsports

From:

Course Description: An introductory course detailing methods for designing and modeling motorsports components using Computer Aided Design (CAD) software. Credits 2.0

To:

Course Description: An introductory course detailing methods for the designing and modeling of motorsports components using SolidWorks CAD software. The ability to visualize and conceptualize a real part in the physical world and produce graphical representations of it in 2D and 3D is a primary objective. Skills developed in the course enable students to prove their competence by taking the SolidWorks Associate (CSWA) certificate exam as part of the class. Credits 2.0

Reason: The change of the title and the course description provides future students with a better understanding of course content and the knowledge they will gain through the course.

Christopher E Finch, Professor of Practice and Site Director Motorsports Engineering
School of Mechanical Engineering
