

TO: The Engineering Faculty

FROM: The Faculty of the School of Nuclear Engineering

RE: New graduate course – NUCL 59000 Independent Study in Nuclear Engineering I

The Faculty of the School of Nuclear Engineering has approved the following new graduate course. This action is now submitted to the Engineering Faculty with a recommendation for approval.

FROM (IF ALREADY OFFERED WITH TEMPORARY NUMBER):

NUCL 59700 – Nuclear Engineering Projects I

1 to 6 total credits

TO:

NUCL 59000 Independent Study in Nuclear Engineering I

1 to 6 credits total credits

Permission of instructor required.

Independent research projects. Interested students seek a faculty instructor in their area of special interest and prepare a brief description of the independent project to be undertaken. May be taken for 1-6 credits in Fall, Spring, or Summer. May be repeated as many times as desired, but only maximum of 6 credits may be counted for the degree program requirement.

RATIONALE:

NUCL 59700 currently includes both independent research projects and selected topic courses. The School decided to split these into two separate courses; the independent research projects corresponding to NUCL 59000.

Head/Director of the School of Nuclear Engineering
