

Memorandum

To: The Faculty of the College of Engineering

From: Environmental and Ecological Engineering

Date: May 28, 2024

RE: Fast track EFD 11-25, EEE 48100, Reflective Practitioner

---

Reason: We need to update the corequisites.

The current corequisites is EEE 48000, Environmental And Ecological Engineering Senior Design. To make things easier in the auditing software we created two versions of EEE 48000, EEE 48001 (Environmental And Ecological Engineering Senior Design) and EEE 48002 (Environmental And Ecological Engineering Senior Design II). This requires that we update the corequisites.

The new corequisites is EEE 48001, Environmental And Ecological Engineering Senior Design.

Corequisites: EEE 48001

A handwritten signature in black ink that reads "John W. Sutherland".

John W. Sutherland, Ph.D.  
Professor and Fehsenfeld Family Head  
Environmental and Ecological Engineering
