

**TO:** The Engineering Faculty

**FROM:** The Faculty of the Lyles School of Civil and Construction Engineering

**RE:** Requisite Changes to CE 65000 Photochemical Reactors: Theory, Methods, And Applications of Ultraviolet Radiation

The Faculty of the Lyles School of Civil and Construction Engineering has approved the following requisite changes to a graduate course. This action is now submitted to the Engineering Faculty with a recommendation for approval.

**Requisite Change for CE 65000 Photochemical Reactors: Theory, Methods, And Applications of Ultraviolet Radiation**

**FROM:**

Schedule type: Residential offering only

**TO:**

Schedule type: Residential and distance offering

**RATIONALE:**

When the permanent course number was requested for the course, the schedule type distance option was inadvertently left off the form. We are requesting that the distance option be added. The course was offered in the distance format when the course was offered as CE 59700.
