FROM: The Davidson School of Chemical Engineering
RE: Fast Track – Change in Requisites for CHE 39699

The Faculty of the Davidson School of Chemical Engineering have approved the following change. This action is now submitted to the Engineering Faculty with a recommendation for approval.

Course: CHE 39699 Professional Practice Internship
Current Pre-requisite: Undergraduate Level CHE 29699 Minimum Grade of S
Proposed Requisite: Removal of Undergraduate Level CHE 29699 Minimum Grade of S pre-requisite
Reason: EFD 9-16 approved the change in course title to align with the new Office of Professional Practice Internship course numbers. However, the EFD did not address the change in requisites which eliminates the need for the former CHE 29699 ChE Professional Practice Internship I.
