

TO: The Engineering Faculty
FROM: The Davidson School of Chemical Engineering
RE: Fast Track – Change in Title for CHE 41100

The Faculty of the Davidson School of Chemical Engineering have approved the following changes. This action is now submitted to the Engineering Faculty with a recommendation for approval.

Course: CHE 41100 CHE Science Research Problems

Current Title: CHE Science Research Problems

Proposed Title: CHE 41100 ChE Undergraduate Research

Reason: CHE 41100 currently is a variable title, variable credit course. In an effort to be transparent that a student is participating in Undergraduate Research on a student's transcript, we are eliminating the variable title portion and to simply reflect that a student participated in ChE Undergraduate Research.
