

TO: The Engineering Faculty
FROM: The Faculty of the School of Mechanical Engineering
RE: Restriction Changes to ME 55300, Product & Process Design

The School of Mechanical Engineering has approved the following restriction changes to a graduate course. This action is now submitted to the Engineering Faculty with a recommendation for approval.

Restriction Change for ME 55300 Product & Process Design

Underline the changes to be made.

FROM:

Upper level and Graduate students

TO:

Mechanical Engineering Graduate students (Program codes of ME-MSME, ME-MSME-OL, ME-ND, ME-PHD)

RATIONALE:

Restrictions are being changed so that Mechanical Engineering (MECH) graduate students have first chance to register in the course, as for the past several semesters, ME graduate students have been in the minority of students, who were able to register for this course based on time ticket window opportunities, or have been unable to take the course.

Eckhard A. Groll, Head of the School of Mechanical Engineering
