REVISED

Engineering Faculty Document 53-18
February 13, 2019
Page 1 of 1

To: The Engineering Faculty
From: School of Electrical and Computer Engineering
Re: ECE 39600

The School of Electrical and Computer Engineering has approved a change to the following course pre-requisites. This action is now submitted to the Engineering Faculty with a recommendation for approval.

ECE 39600 Industrial Practice Seminar I

Semesters offered: Fall, Spring

Non-repeatable

Credit 4

FROM:

(ECE 39399 or ECE 39499 or ECE 39599 or ECE 38199 or ECE 38299 or ECE 38399 or ECE 47000) and (ECE 20007 or ECE 20700) and (ECE 20008 or ECE 20800) and ECE 27000).

TO:

Pre/Co-requisites: (ECE 39399 or ECE 39499 or ECE 39599 or ECE 38199 or ECE 38299 or ECE 38399) and (ECE 20007 or ECE 20700) and (ECE 20008 or ECE 20800) and ECE 27000.

Course Description

A special seminar for cooperative education and curricular practical training students. May be taken no more than twice for credit. Grading is Pass/No Pass

Reason

The pre-requisite of ECE 47000 required students to pay a fee for the course while on internship. The ECE faculty believe their experience can be documented without forcing them additional costs. In place of registering for ECE 47000, students will provide documentation to the Director of Undergraduate Programs to validate the internship experience and allow them to take ECE 39600 upon their return to classes. **This in no way changes how students in the Co-Operative program register while on a work session, and they will continue to register for the appropriate course and pay the associated fees.**

History of Previous Offering

This course has ran for over 10 years.

Michael R. Melloch, Associate Department Head of ECE
