RE: Requisite change to ME 56200 Advanced Dynamics

The Faculty of the School of Mechanical Engineering has approved the following requisite changes to ME 56200. This action is now submitted to the Engineering Faculty with a recommendation for approval.

Requisite change:

FROM:

Prerequisites:
GR-ME 35200 Course

General Requirements:
(Student Attribute: GR; May not be taken concurrently.)
or
(Course or Test: ME 35200; Minimum Grade of B; May not be taken concurrently.)

TO:

Prerequisites:
None

Reason: We propose to remove ME 352 (Machine Design – I) from the pre-requisites for ME 562. ME 352 is no longer a required course within the undergraduate ME program. It has been replaced with ME 354, which is focused on machine component design. Machine component design is not necessary as a prerequisite for ME 562.

James D. Jones, Associate Professor and Associate Head
School of Mechanical Engineering
