FROM: The Davidson School of Chemical Engineering
RE: Fast Track Change in Requisites for CHE 20500

The Faculty of the Davidson School of Chemical Engineering have approved the following changes. This action is now submitted to the Engineering Faculty with a recommendation for approval.

Course: **CHE 20500 Chemical Engineering Calculations**

Current Requisite: Pre-requisite:
ENGR 13100 or equivalent, PHYS 17200, MA 16500 Minimum Grade of C-
Con-Current Requisite:
CHM 11600

Proposed Requisite: Pre-requisite:
ENGR 13000 or ENGR 13100 or equivalent (**VIP 17911 or ENGR 17911**),
PHYS 17200, MA 16500 Minimum Grade of C-
Con-Current Requisite:
CHM 11600

Reason:

A change in requisites to include ENGR 13000 (the former ENGR 19500), will allow all students who complete this course as part of the FYE Curriculum an opportunity to enroll in CHE 20500. Currently the listed equivalent requisites of ENGR 13100 (ENGR 16100, EPCS 11100 & 12100) do not include VIP 17911 or ENGR 17911 which prevent a student who completed the VIP 17911 or ENGR 17911 from enrolling in CHE 20500. Adding these two courses as part of the equivalent list to ENGR 13100, will allow those FYE students to register for CHE 20500 without experiencing any errors during the registration process.
