

Course Requisite Change EFD Template

College of Engineering

Engineering Faculty Document

No.: EFD 70-24

February 2, 2024

TO: The Engineering Faculty
FROM: The Faculty of the Agricultural and Biological Engineering Department
RE: Requisite Changes to ABE 62600

The Faculty of the Agricultural and Biological Engineering Department has approved the following requisite changes to a graduate course. This action is now submitted to the Engineering Faculty with a recommendation for approval.

Requisite Change for ABE 62600

Underline the changes to be made.

FROM:

Life of a Faculty Entrepreneur

TO:

Technology Entrepreneurship and Research Translation

RATIONALE:

This change is to align the title to be more reflective of the material that is presented in the course, and to better communicate the technical nature and research content of the course to graduate students who take it (as an elective). The title change also reflects the recommendations of previous students who indicated that a change would be helpful, and gave a number of suggestions that led to the current title. The "Faculty Entrepreneur" title was originally selected over 10 years ago when Faculty directed entrepreneurial activities and concerted efforts for translation at Purdue (and elsewhere) was a novelty. This has changed of course. The course description is the same.

A handwritten signature in black ink, appearing to read 'D. H. Smith'.

Head/Director of the Agricultural and Biological Engineering Department
