SAVE THE DATES

Purdue Engineering is pleased to offer six professional development workshops for faculty in 2019-20. Save the dates now and watch for more details and registration information for the individual workshops.

**OCT. 10 & 11, 2019**

**Effective College Teaching/Getting Off to a Fast Start Workshop**
Rebecca Brent, President of Education Designs, Inc. and Richard M. Felder, Hoechst Celanese Professor Emeritus of Chemical Engineering, will provide tools and strategies for faculty members to become fully effective in teaching and productive in research in 1-2 years instead of the usual 4-5 years.
Oct. 10 at 8:30-4:30 and Oct. 11 at 8:30-12, STEW 313

**NOV. 5, 2019**

**Diversity & Inclusion Workshop**
This workshop is delivered by Naomi Chesler, Professor of Biomedical Engineering at the University of Wisconsin-Madison, and Diana Kardia, CEO of the Kardia Group, and is designed to create an inclusive community of faculty, staff and students, and empower faculty and staff in their ability to make a contribution to a positive and diverse environment.
Nov. 5 at 9:00-5:00, The Trails, 325 Burnett Rd, W. Lafayette

**JAN. 24, 2020**

**Teaming Science Workshop**
NIH and NSF are increasingly paying attention to teaming science for large center proposals. Michelle Bennett, a leading expert in team science, will offer a workshop on developing strategies for success in collaboration and team science for multi-investigator teams and centers. She is the co-author of “Collaboration and Team Science: a Field Guide,” a research-based handbook that provides strategies for developing effective teams.
Jan. 24 at 9:00-12:00, KPTC Large A/B, 1281 Win Hentschel Blvd., W. Lafayette

**FEB. 5, 2020**

**A Day of Mentoring**
Faculty from the National Center for Faculty Development and Diversity will facilitate (2) workshops and give a keynote address. Offerings include Mentoring 101 for junior faculty, Re-thinking Mentoring for heads and senior faculty; and a keynote address, Post-Tenure Pathfinders for recently tenured faculty. The workshops offer a framework for mentoring that focuses on needs assessment and shifts the idea of mentoring from a relationship between 2 faculty members towards building a broad network of support, community and accountability. The talk focuses on the challenges associated with post-tenure life and provides an understanding of pathways forward after winning tenure. Watch for an email with times, locations and registration information that will be coming out soon!

**FEB. 19, 2020**

**How to Become a Rainmaker**
Purdue’s own Alina Alexeenko, Professor of Aeronautics & Astronautics, will facilitate a session on securing industry funding where successful colleagues will share their strategies for developing industry partnerships. Participants will also gain an understanding of university models for industrial grants, contracts and IP agreements.
Feb. 19 at 10:00-1:00, STEW 202

**MAR. 24 & 25, 2020**

**Leadership Skills for Engineering and Science Faculty**
This two-day program is delivered by Chuck McVinney, President of McVinney& Company, Inc. and Charles Leiserson, Professor of Computer Science and Engineering at MIT. This program is designed to assist engineering and science faculty to manage the human elements of leadership more skillfully in academic settings.
Mar. 24 & 25 at 8:00-5:30, STEW 214

If you have ideas for future workshop topics, please send them to Arvind Raman, Senior Associate Dean of the Faculty, or Marsha Freeland, Director, Faculty Success Programs.
