**Evacuation and Shelter-In-Place Procedures**

**ARMS B061**

**Updated: Fall 2010**

---

**In case of Fire:**
- Calmly follow a solid gold path to the closest *stairwell*.
- Take it to the FIRST FLOOR and exit the building, assemble 100ft from the SOUTHWEST end of the building.

**In case of Violence:**
- If incident is occurring in your building, call 911 if possible.
- If possible, seek shelter in a lockable or securable room, preferably without windows.

**In case of Shelter-in-Place-Weather-Related Emergencies:**
- Calmly remain in B061

Evacuation Procedures

• You are in a facility used for research; it is possible that the evacuation horn will sound.
• This is a very loud INSIDE alarm.
• Please walk calmly out of the building and gather outside on Stadium Mall Drive to the Southwest of CIVL.
• Stay in the CIVL area until a police officer gives the all clear.
• It is extremely dangerous to enter a building in the middle of an emergency.
• It is the responsibility of the faculty and staff to execute this emergency plan upon hearing the evacuation siren.

All Hazards Emergency Warning Sirens

• A weather emergency, such as a tornado, will activate the “shelter in place” siren.
• This is a less audible OUTSIDE, area-wide siren.
• Please seek shelter in the basement area.
