

TO: The Engineering Faculty  
FROM: Department of Biomedical Engineering  
RE: Permanent Dual Level Course Number

The Department of Biomedical Engineering has approved the following new course. This action is now submitted to the Engineering Faculty with a recommendation for approval.

**BME 583 Biomaterials** Sem. 2. Class 3, cr. 3. (Offered in alternate years.) Prerequisites: Permission of the instructor required

Course discusses principles of biomaterial design, synthesis, and evaluation for various tissues/organs of the body including orthopaedic/dental, cardiovascular, kidney, liver, lung, skin, nerve, and brain. Topics include fundamentals of materials science and engineering integrated into biology for the better regeneration of tissue.

**Reason:**

The third time this course was taught was in the Fall of 2003. No courses currently exist at Purdue that specifically address biomaterials science and engineering.

George R. Wodicka  
Professor and Head

**Supporting Documentation:****Course Instructor:** Tom Webster**Offered:** fall semester (even years)**Course Objective:**

To integrate materials science and engineering concepts with biology to educate students how to design successful biomaterials.

**3. SYLLABUS:**

<u>Topics</u>	<u>No. of Lectures</u>
<u>Introduction to course</u>	1
<u>Structure of solids</u>	3
Atomic bonding, crystal structure, imperfections	
<u>Characterization of materials</u>	4
Mechanical properties, stress-strain behavior	
Viscoelasticity, thermal properties, phase diagrams	
Strengthening mechanisms, surface properties	
<u>Metallic implant materials</u>	3
<u>Ceramic implant materials</u>	3
<u>Polymeric implant materials</u>	4
<u>Composites as biomaterials</u>	2
<u>Structure-property relationships in biology</u>	3
Proteins, polysaccharides, mineralized tissue: bone/dentin	
<u>Organ Transplants</u>	3
<u>Tissue response to biomaterials</u>	7
Normal wound healing process, body response to implants	
<u>Cell response to biomaterials</u>	8
Protein mediated cell adhesion	
<u>Student Presentations</u>	3
Total	44
