

**Purdue University
College of Engineering
Engineering 2020 Committee
Minutes
May 5, 2008**

Present: Jim Jones, Michael Harris, Bob Hannemann, Teri Reed-Rhoads, P.K. Imbrie, Peter Meckl, Carla Zoltowski, Carolyn Percifield, Tatjana Jevremovic, and Dale Harris.

The meeting was called to order by Jim Jones at 2:10 pm. There was discussion about the date of the Workshop. Cele is checking on Thursday, September 25. We would like to have Leah present to set a positive tone for the workshop. The BME building dedication is September 30th, and we don't know how much involvement Leah has with that, or if she would be available to participate in our workshop. Jim will check with Dan about the BME guest speaker's possible involvement with the Engineering 2020 workshop. Would Cele be available on the same date as the BME building dedication to help with our workshop? September 23 will not work, the 25th is a possibility. Once the day is selected, the speakers will be contacted.

Since Dr. Lecia Crumpton-Young is focused on curriculum, we would contact her first for Leadership panelist. It was noted that Monica would be able to call Lecia. Carolyn will check with Dean Jamieson for preference on the Moderator; Bill Wulf, Wayne Clough, or Charles Vest..

There was discussion about the meeting room. Last year it was held in the Union north ballroom. Stewart Center has rooms that can be enlarged if needed. Lectures halls were a possibility, but with classes in session, rooms may not be available. Krannert extension room, BME lecture room, Brown or Fiedler hall, Pharmacy, Class of 50 were discussed. Overall, it was felt that Stewart Center or the Union would be the preference.

This committee needs to identify people who are interested in particular areas for the Purdue Champions part of the sessions. Jim will ask Cindy Tomovich for a suggestion on leadership Champion. Arnie Cooper, a Krannert grad, was suggested for Leadership. Please send any other suggestions to Jim Jones.

The Attribute Clusters handout was discussed. It was suggested that we monitor what is going on in these various areas. Then find people that already have an interest in these areas; possibly have them go to workshops, tap into existing networks, and learn what is available. Using these resources, bring back information to our faculty.

Please e-mail questions for keynote speakers to Jim. One item for speakers: suggest networks and centers that are available for faculty use.

The meeting was adjourned at 2:10 pm.
