1 Identification of substance:

Product details:
Product name: Nitric acid, 65-70%
Stock number: 10984
Manufacturer/Supplier:
Alfa Aesar, A Johnson Matthey Company
Johnson Matthey Catalog Company, Inc.
30 Bond Street
Ward Hill, MA 01835-8099
Emergency Phone: (978) 521-6300
CHEMTREC: (800) 424-9300
Web Site: www.alfa.com

Information Department: Health, Safety and Environmental Department

Emergency information:
During normal hours the Health, Safety and Environmental Department.
After normal hours call Chemtrec at (800) 424-9300.

2 Composition/Data on components:

Chemical characterization:
Description: (CAS#)
nitric acid (CAS# 7697-37-2); 65-70%
water (CAS# 7732-18-5); 30-35%
Identification number(s):
EINECS Number: 231-714-2
EU Number: 007-004-00-1

3 Hazards identification

Hazard description:
C Corrosive
O Oxidizing

Information pertaining to particular dangers for man and environment
R 8 Contact with combustible material may cause fire.
R 35 Causes severe burns.

Classification system
HMIS ratings (scale 0-4)
(Hazardous Materials Identification System)

Health (acute effects) = 3
Flammability = 0
Reactivity = 2

4 First aid measures

General information
Immediately remove any clothing soiled by the product.

After inhalation
Supply fresh air. If required, provide artificial respiration. Keep patient warm.
Seek immediate medical advice.

After skin contact
Immediately wash with water and soap and rinse thoroughly.

(Contd. on page 2)
5 Fire fighting measures

Suitable extinguishing agents
Product is not flammable. Use fire fighting measures that suit the surrounding fire.

Special hazards caused by the material, its products of combustion or resulting gases:
In case of fire, the following can be released:
Nitrogen oxides (NOx)

Protective equipment:
Wear self-contained respirator.
Wear fully protective impervious suit.

6 Accidental release measures

Person-related safety precautions:
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation

Measures for environmental protection:
Do not allow material to be released to the environment without proper governmental permits.

Measures for cleaning/collecting:
Use neutralizing agent.
Dispose contaminated material as waste according to item 13.
Ensure adequate ventilation.
Absorb with liquid-binding material.

Additional information:
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

7 Handling and storage

Handling
Information for safe handling:
Keep container tightly sealed.
Store in cool, dry place in tightly closed containers.
Ensure good ventilation at the workplace.

Information about protection against explosions and fires:
Substance/product can reduce the ignition temperature of flammable substances.

Storage
Requirements to be met by storerooms and receptacles:
No special requirements.

Information about storage in one common storage facility:
Store away from flammable substances.
Store away from reducing agents.

Further information about storage conditions:
Keep container tightly sealed.
8 Exposure controls and personal protection

Additional information about design of technical systems:
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

Components with limit values that require monitoring at the workplace:

Nitric acid

Additional information: No data

Personal protective equipment

General protective and hygienic measures
The usual precautionary measures for handling chemicals should be followed.
Keep away from foodstuffs, beverages and feed.
Remove all soiled and contaminated clothing immediately.
Wash hands before breaks and at the end of work.
Do not inhale gases / fumes / aerosols.
Avoid contact with the eyes and skin.

Breathing equipment:
Use suitable respirator when high concentrations are present.

Protection of hands: Impervious gloves

Eye protection:
Safety glasses
Tightly sealed goggles
Full face protection

Body protection: Protective work clothing.

10 Stability and reactivity

Thermal decomposition / conditions to be avoided:
Decomposition will not occur if used and stored according to specifications.

Materials to be avoided:
Reducing agents, easily oxidized materials
Bases
Metal powders
Alkali metals
Alkaline earth metals
Cyanides
Sulfides

Dangerous reactions
Reacts with metals forming hydrogen
Reacts with reducing agents
Reacts with flammable substances

Dangerous products of decomposition: Nitrogen oxides

11 Toxicological information

Acute toxicity:
LD/LC50 values that are relevant for classification:
Oral: LDLo: 430 mg/kg (hmn) (HNO3)
Unreported: LDLo: 110 mg/kg (man) (HNO3)

Primary irritant effect:
on the skin:
Strong corrosive effect on skin and mucous membranes.
Irritant to skin and mucous membranes.
on the eye:
Strong corrosive effect.
Irritating effect.

Sensitization: No sensitizing effects known.
Product name: Nitric acid, 65-70%

Subacute to chronic toxicity:
Nitric acid is a corrosive oxidizing acid. The liquid causes burns on contact. Eye contact may cause blindness. Vapors are irritating and cause upper respiratory irritation which may be severe. Corrosive to the teeth and digestive tract on ingestion. Dilute solutions have reduced effects.

Additional toxicological information:
Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach.
To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.

12 Ecological information:
General notes:
Do not allow material to be released to the environment without proper governmental permits.

13 Disposal considerations
Product:
Recommendation
Consult state, local or national regulations to ensure proper disposal.

Uncleaned packagings:
Recommendation: Disposal must be made according to official regulations.
Recommended cleansing agent: Water, if necessary with cleansing agents.

14 Transport information
DOT regulations:

| Hazard class | 8 |
| Packing group | II |
| Hazardous substance | 1000 lbs, 454 kg |
| Label | 8 |

Land transport ADR/RID (cross-border)

| ADR/RID class | 8 (C1) Corrosive substances |
| Danger code (Kemler) | 80 |
| UN-Number | 2031 |
| Packaging group | II |
**Description of goods:** 2031 NITRIC ACID

**Maritime transport IMDG:**

- IMDG Class: 8
- UN Number: 2031
- Label: 8
- Packaging group: II
- EMS Number: F-A,S-B
- Proper shipping name: NITRIC ACID

**Air transport ICAO-TI and IATA-DGR:**

- ICAO/IATA Class: 8
- UN/ID Number: 2031
- Label: 8
- Packaging group: II
- Proper shipping name: NITRIC ACID

15 Regulations

**Product related hazard informations:**

**Hazard symbols:**
- C Corrosive
- O Oxidizing

**Risk phrases:**
- 8 Contact with combustible material may cause fire.
- 35 Causes severe burns.

**Safety phrases:**
- 23 Do not breathe fumes
- 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- 36 Wear suitable protective clothing.
- 45 In case of accident or if you feel unwell, seek medical advice immediately.

**National regulations**
All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory.
All components of this product are listed on the Canadian Domestic Substances List (DSL).

**Information about limitation of use:**
For use only by technically qualified individuals.
<table>
