

Iowa DOT TTCP

2024 M-TRAC Meeting
Boone, IA

The Program - Structure

- Program Director – Wes Musgrove
- Board of Certification
- Federal Highway Administration (FHWA)
- Program Coordinators – Hope Arthur & Brian Squier
- DMACC Partners
- District TTCP Administrators
- TTCP Task Groups

TTCP COORDINATORS

- Administer the TTCP according to the guidelines in IM 213.
- Coordinate task groups and class scheduling.
- Create, modify and update the online Registration Book, online Certified Technicians Book, printable certificates, TTCP website, the Learning Management System (IOWADOT U), the Access Certification Database, and all web-based training.
- Keep accurate training records of all enrollments, cancellations, completions, financial transactions, test scores, unsatisfactory performances, and certified technician information. Write ad hoc queries to pull data and create reports as needed.
- Review and provide desktop publishing services for all printed training materials. Write print orders, schedule, track, pick-up and disseminate printed training materials to proper locations. Track inventory.

TTCP COORDINATORS

- Monitor, summarize and/or respond to class evaluations, question challenges, requests for reciprocity and any other submitted comments or complaints.
- Review all class registrations for eligibility, prerequisites, correct payment type, missing information and more. Contact enrollees and resolve any issues.
- Monitor classes, proctor exams, set-up training sites, create, print and mail certification cards, deliver classroom supplies or technology as needed.
- Research technology and training delivery methods.
- Market the TTCP through mailings, email, various group presentations, and websites.
- Respond to thousand of emails and calls throughout the training season.

DMACC PARTNERSHIP

- Hire instructors and proctors
- Teach and proctor
- Assist with Task Groups
- Provide flagship training facility (Boone)
- Provide audio-visual and class materials to the Districts
- Provide and support testing service
- Assist with scheduling
- Provide and manage class sign-in
- Assist with financial management of the program

DISTRICT TTCP ADMINISTRATORS

- Assist with class scheduling and staffing
- Prepare the facility
- Assist with class sign-in and testing
- Assist with retesting, reciprocity testing, engineer testing, etc. at their location
- Track needed classroom materials and equipment
- Make calls on weather conditions or other issues
- Answer questions

OUR
MISSION
Getting you there
safely,
efficiently,
conveniently

IOWA DEPARTMENT OF
TRANSPORTATION
