ACI Certification Update

Green Bay, WI

July 9, 2026

ACI Resource Centers

<https://www.concrete.org/certification/resourcecenters.aspx>

Wood Dale, IL (relocated in Fall 2025)

Columbia, MD

San Bernardino, CA

ACI-staffed, open 5 days/week (weekends by appt.), most ACI Certification programs available, low-volume scheduled sessions (1-6 candidates), retests available by appt., customized/extended training available (cert and non-cert related). Facility available for industry meetings by appt. Personnel may be available for in-house sessions by special arrangement.

Pervious Concrete Installer

NRMCA Program transferred to ACI during the 2nd Quarter of 2026. Fully operational/available now through ACI. Maintenance of program assigned to ACI Certification Committee C613. Pervious Certification. Programs?separate from but containing members of ACI Technical Committee 522 Pervious Concrete.

Aggregate Base Testing Technician

The ACI Aggregate Base Testing Technician program has been bifurcated into ASTM and AASHTO versions, and new workbooks:

- CP-46 Aggregate Base Testing Technician (ASTM based)
- CP-47 Aggregate Base Testing Technician (AASHTO based)

Additional new workbooks

- CP-1, 41st ed.
- CP-92 Nondestructive Testing Specialist - Concrete Strength
- CP-45 Aggregate Testing Technician – Level 2

The initiative to reauthor new editions of all materials in the ACI Certification educational publication library is nearly complete. This project has vastly improved the publications' clarity/understandability with each program's target audience.

Concrete Transportation Construction Inspector

Program materials refreshed to update technical resources and exam.
