ISSUES IN 2025-2026

Proctors not completing the proctor agreement, or not completing it immediately before the test begins.

Retake of a retake test not getting the Proctor Agreement completed.

Not finishing a test before starting the next one.

GLMLearnSoft issue with another agency using the same ID numbers that we had for individuals.

DELAYS

One class delayed due to not getting the updates in time.

Classes opening on July 1st and October 1st:

Updates were due April 10th

Still getting information from
Instructors at the end of June.

ACCESSIBILITY REQUIREMENT

We found out that everything needed to meet the accessibility requirements around August of 2025.

We had the classes opening on December 1st made accessible by that time.

Our classes consist of videos and power points.

Video's have closed captioning, so nothing to do there.

PowerPoints had to be made accessible, so our Instructors (subject matter experts) completed that and that was all the we needed.

It did take some time to get some of them done and sent to us.

PRICE INCREASES

- We have not raised the prices of the classes/exams in several years.
- For the 2026-2027 training season, prices went up some.
 - For the most part, class prices are going up \$50.
 - Retakes and Recertification exams are going up \$5.
 - ACI Concrete Field is going up more, because the cost of the ACI exam has risen 3 times in the past 8 years, and K-State has just absorbed that cost.

INSTRUCTORS

29 Individual Instructors, some teach more than one class

CLASSES

**23 CLASSES
WITH OPTIONS (66)**

**FULL CLASS (IN-PERSON OR ONLINE)
RECERTIFICATION
RETAKE
QUIZ OUT
PROVISIONAL**
