

Technician Certification Program (TCP)

Overview

- Any acceptance testing for MoDOT projects is to be completed by a Certified Technician.
- Certification consists:
 - Classroom Instruction
 - Written Examination
 - Performance Demonstration

Overview

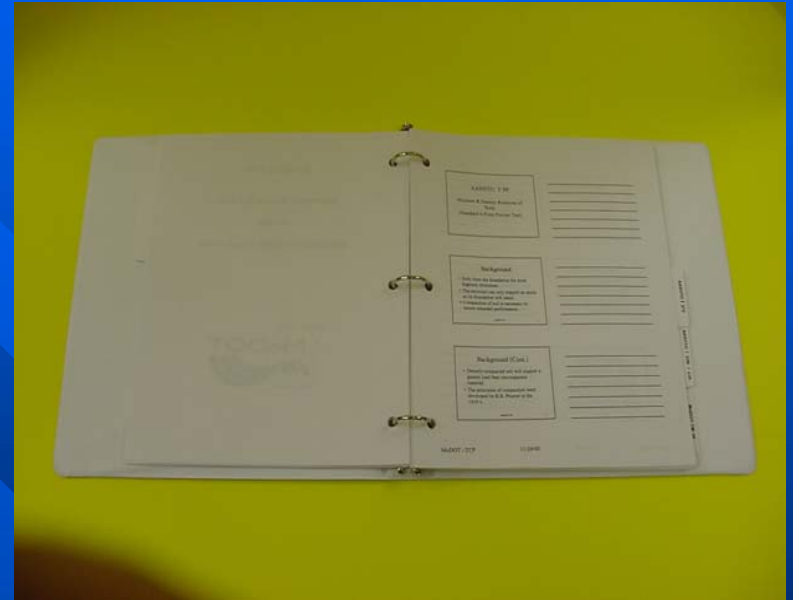

- Certifications soon to be valid for 5 years.
- Reciprocity honors other states certifications, restricted to test methods in common.
 - May take supplemental test to receive unrestricted certification.

Overview

- Written examinations are open book.
- Re-certification consists of student self study, short review of any changes, written exam and performance demonstration.
- Students allowed 1 re-test on written exam and performance demonstration.

Training Material

- Course books consist of PowerPoint material note pages.
- Available **MTRAC** training material.
- Materials and/or Construction Manual excerpts.
- Publishable Test Methods.

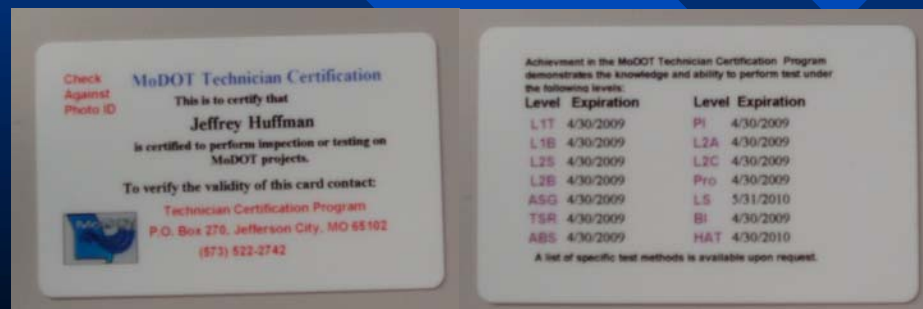

Course Locations

- Linn State Technical College – Linn MO
 - Aggregate Technician
 - Bituminous Technician
 - Soil Density
 - Profilograph
 - Concrete Field
 - Concrete Strength
 - Plasticity Index
- Missouri University of Science and Technology, Rolla (Missouri S&T)
 - Superpave QC/QA
 - HMA Aggregate
 - TSR
- Central Laboratory – Jefferson City MO
 - Aggregate Specific Gravity
 - T85 Absorption
 - Low Slump

Certification Cards

- Temporary cards issued upon successful completion of each class.
- Permanent cards issued July 1, each year, to include all of a technicians current certifications.
- Used PVC Cards this past season. Cost around \$1 each. Much less labor to produce.

De-Certification

- Any documented cases of fraud, abuse, willful negligence will be investigated and appropriate action taken to suspend or remove individual from the certification program.
- Demonstrated incompetence may require repeat of certification course.

Changes!!

- Now offering most renewals regionally!
 - Because of budget constraints and the cost of travel to a central location, we will offer a limited number of renewal certification opportunities regionally. Locations will be St. Louis, Kansas City, Springfield and Poplar Bluff.
 - Renewals consist of taking a written exam and hands on performance demonstrations.

Status Reports

- Status report sent to each company
- Included
 - Letter highlighting changes to the program
 - Listing of company's employee(s) who are currently certified
 - Individual techs certification(s) with expiration date
- Good response
 - Our data base is more up to date
 - Early class registration is up
 - Sending annually in mid September.

Technician Certification Program Status Report
