1. **Approve Minutes from Mar. 23, 2017 Meeting**

2. **Discuss Status of ME Safety Recertification:**
   Several items are still outstanding from the Mar. 10 REM inspection of ME labs. ME B102 has several issues that still must be addressed. Bob Lucht will meet with Brian McDonald from REM to resolve these. Also, more air is currently being used in B102 than the building infrastructure can sustain. Bob will meet with Anil to explore future needs and potential upgrades to the building air supply infrastructure.

3. **Old Business:**
   - Multiple faculty in the same lab: Marty Mlynarik recommended to put a map on the door indicating the name of the faculty member responsible for each portion of the lab. Rick DuVall will meet with Mike Black to refine the building schematics to include details on which portion of each lab is being used by each faculty researcher.

4. **Schedule Next Meeting:** Next meeting will be on Thurs., May 11, 2017 at 10:30 am.
