

## Warren and Judy Stevenson Graduate Scholarship In Mechanical Engineering Announcement

The Warren and Judy Stevenson Graduate Scholarship in Mechanical Engineering is desired to encourage mechanical engineering graduate students to study and pursue research in areas related to applied optics. It is awarded based on academic merit. Each recipient will receive a scholarship of \$4,000. Two recipients will be selected for the year 2023, but that can change in future years.

### Eligibility:

Graduate students pursuing study in areas of applied optics, optical sensors, and laser velocimetry are eligible to apply.

### Selection criteria:

1. Excellent academic achievement.
2. Excellent research performance.

### Application will consist of:

- A resume which indicates study or research interests.
- Up to date transcripts.
- An essay from the student to describe how they meet the above selection criteria.
- A recommendation letter from ME faculty.

Please email your application in one PDF file to [megradoffice@purdue.edu](mailto:megradoffice@purdue.edu) by **deadline as posted on the ME Grad Blog.** Recommendation letters can be emailed to [megradoffice@purdue.edu](mailto:megradoffice@purdue.edu) by faculty, but subject line must specify student and which award applies.
