

COMPUTATIONAL INTERDISCIPLINARY GRADUATE PROGRAM (CIGP)

CIGP offers the opportunity to graduate with a concentration in Computational Science and Engineering (CSE), Computational Life Science (CLS), or Computational Data Science (CDS) for both MS and PhD students enrolled in participating departments across the Colleges of Agriculture, Engineering, Health and Human Sciences, Pharmacy, Science, and Technology. These programs have over 200 students and 190 affiliated faculty from varying disciplines.

COMPUTATIONAL INTERDISCIPLINARY GRADUATE PROGRAM

- Broaden your approach and explore new areas through innovative computational methods.
- Network with students and faculty from 30+ degree-granting departments.
- Join a community of interdisciplinary computational scientists and scholars.
- Expand your skills and knowledge with a customizable, flexible curriculum.
- Earn a concentration on your academic transcript specializing in Computational Science and Engineering (CSE), Computational Life Sciences (CLS), or Computational Data Science (CDS).
- Applications due October 1st and March 1st.
