

ME CO-OP PROGRAM RULES

Before reporting to your first work session

- a) You must submit your accepted co-op employment offer letter to the ME Co-op Office.
- b) You must complete and submit your co-op checklist to the ME Co-op Office with all relevant signatures.
- c) You must be registered for the appropriate ME co-op course for the work session. Failure to register for the co-op course for the work period may result in termination from the program.
- d) FYE students are not allowed to start work until mid to late May. Official decisions on admission to the School of Mechanical Engineering are not made until that time.
- e) FYE students must have either official word of admission to the School of Mechanical Engineering or receive written permission from the ME Co-op Coordinator to report to work.
- f) You must have appropriate CPT or OPT documentation if you are an international student.

Before reporting for subsequent work sessions

- a) You must be registered for the appropriate ME co-op course for every work session. Failure to register for the co-op course for any work period may result in termination from the program.
- b) You must satisfy the minimum grade point average of both Purdue and your employer, as well as meet other academic requirements stated in the following section.
- c) You must have appropriate CPT or OPT documentation if you are an international student.

Academic eligibility

- a) You must meet both the Purdue minimum GPA and your employer's minimum GPA throughout the entire time of participation in the co-op program.
- b) You will be placed on co-op notice if your cumulative GPA falls below the minimum Purdue co-op program GPA of 2.6. If you are placed on co-op notice, you will not be allowed to go to your next work session.
- c) You must remove yourself from co-op notice during the following academic semester. Failure to do so may result in being dropped from the program.
- d) You may be dropped from the co-op program: if you are placed on Academic Notice or, if your cumulative GPA falls below 2.50 (without being first placed on notice). Under either of these circumstances, you will **not be** allowed to go to your next work session. You must work directly with the ME Co-op Coordinator to determine your eligibility to remain in the co-op program.

_____ (initial here)

Work session assignments

You must complete the following three assignments during every work session:

- Pre-Experience Assignments: Focused on data and goal setting; Due at the beginning of each work session. Survey & links in Brightspace.
- Post-Experience Assignments: Reflection on goal achievement and overall experiential learning; Due at end of each work session. Survey & links in Brightspace.
- Post-Experience Employer Evaluation Survey: Employer feedback on your performance; Due at the end of each work session. Survey link to send to your supervisor is provided in Brightspace.

General

- a) Co-op students are required to complete a minimum of three work sessions. Each work session is roughly equivalent to an academic semester. The three work sessions ideally consist of two fall/spring semesters and one summer semester; however, a minimum of one fall or spring work session is required.

Co-op students may complete a maximum of five work sessions. In this case, a minimum of two fall or spring work sessions are required.

_____ (initial here)

- b) Co-op students may change employers one time, resulting in a maximum of two co-op employers (regardless of the number of work sessions). Co-op students must notify the first co-op employer and the ME Co-op Coordinator in writing as soon as possible if you decide to change co-op employers.

_____ (initial here)

- c) Students register for a co-op course while participating in each work session. These courses no longer have a fee starting Fall 2023. These courses allows students to maintain quasi full-time status which helps with insurance and student loan purposes. Normal tuition and fees are charged only while on campus.

- d) An “Unsatisfactory” grade for a co-op work session will result in termination from the co-op program.

- e) If you are dropped from the co-op program, a letter will be sent to the company informing the company of your status.

- f) If you choose to take courses away from the Purdue WL campus during a work session:

- Remember that ME 263, ME 290, the required 300-400 level ME courses, and the ME electives must be taken at Purdue WL campus.
- To verify that you will be able to transfer credit back to Purdue for any other courses, such as general education electives and tech electives, please consult the Transfer Credit section of MyPurdue.

I understand & agree to all of the above statements. I have initialed the 3 items above & have signed below.
