

Purdue MRI Facility Work Prioritization Policy

Funded Research

Time is allocated on a "first come, first served" basis for funded research.

However, for the Life Science MRI Facility, NIH-funded studies take priority over other studies in cases of conflicts.

Unfunded Activities

Unfunded activities (e.g., training) may be scheduled in open time slots as specified for each of the three MRI systems:

Small Animal MRI Facility – No earlier than a week in advance.

Engineering MRI Facility – No earlier than 12:01 AM the day before the desired day of the reservation. For example, for a Friday time slot, no earlier than 12:01 AM on Thursday.

Life Science MRI Facility – Unfunded activities (e.g., training) needs to be approved through the iLab scheduling process with the appropriate Facility personnel.
