Reservations currently are *not* required for those with building and room access (i.e., badge and key) to use the research offices, storage room, most computers, the *research*-only coils, and other materials. These are typically available 24 hours a day, 7 days a week (thus even during clinical scanning); though, again, those with reservations have priority.

These rooms, computers, and equipment that are always available are located in the Purdue section of the building and do not interfere with InnerVision West's clinical scanning that occur between 7 AM and 5 PM, Monday-Friday, except for the Tuesday and Friday mornings listed above within Scanner Availability.
