Applying to Purdue – Materials Engineering Graduate Program

We are pleased you are interested in studying Materials Engineering at Purdue University.

Students with a Bachelor’s degree are considered for admission into either the MS or Direct Ph.D. program. Students who have already completed (or who will soon complete) a qualified Master’s program may apply for admission to the Ph.D. program.

Application Deadlines:
- Fall Semester: January 1 for Domestic and International students
- Spring Semester: Normally, no admission
- Summer: No Entry

Check Application Status:
You may check the progress of your application by logging onto Technolutions Slate.
- Status of “Awaiting Submission” means that your application will not be reviewed until payment is received.
- Status of “Awaiting Materials” will show up in Slate. Your application will indicate what you are missing with an “X” in order to become complete.
- Status of “Awaiting Decision” means that your application is complete and will be forwarded to our Admissions Committee for review.

Your GRE and TOEFL scores may not appear on your application. We are using your self-reported scores for review and will confirm the official scores of the students who will be offered admission. You may email your exam reports to son39@purdue.edu to complete your application.

Admission decision notifications will be e-mailed to applicants approximately 15 weeks from the application deadline. Some applications may be on a wait list for longer. However, you hear from us by 18 weeks from the application deadline. If you have been placed on a wait list, you will hear from us.

Graduate Admission for Masters and Ph.D. Degrees
Send all application materials to:
School of Materials Engineering
Purdue University
Neil Armstrong Hall of Engineering
701 West Stadium Ave. Room 2200
West Lafayette, IN 47907
