

Steele Foundation

Engineered Foundation Construction

Our purpose is to provide top-quality foundation construction services. Specifically, we apply our unique skills and knowledge in the areas of sheeting, shoring and underpinning for new construction and specialty geotechnical techniques for stabilization and repair to challenging mid-size projects primarily in the Metropolitan Washington, DC area.

Origins of Our Firm

1968 | Steele and Moroney, Inc.

1993 | Changed name to Steele Foundations, Inc.

2008 | Revised corporate structure to Steele Foundation LLC
