

Purdue Pilots Inc. meeting
February 16, 2010. 7:00 PM. Physics 333
Attendance list is below. Please send corrections to Rick at westerman@purdue.edu

Treasurer Grayson Steding presided since president Peter Schumann and VP Michael Reddy could not attend.

New certificates/ratings

Jeff Turkstra received his PPL. Congratulations!

Events

ASOR will host the Fly-in Saturday, April 17. The Aviation Technology Student Council is having a photo contest. Submit your pix by March 12.

We will have another callout next week. Stay tuned for further announcements.

Treasurer's report

We will renew our insurance at the same price as last year: ~\$17,800. Our reserve will cover this. Our other reserves remain mostly the same with \$66,400+ in the checking account.

We have 28 members. Slightly fewer than this time last year.

Maintenance report

As was reported last meeting, 38394's alternator was replaced. 862 had its brake pads replaced. Chris reported that he noticed a shimmy in the front wheel of 394. Since that time the front tire was replaced thus, we hope, fixing the problem.

Safety video

We saw a very nice video from AOPA on someone who executed the 'impossible turn' (I.e., turning back to the airport when not at pattern altitude.) This video is especially powerful because it includes actual video from inside the plane. The 'impossible turn' is, of course, highly discouraged since the chance of stalling is so great. This pilot had everything going for him ... plus luck. I recommend viewing it:

<http://flash.aopa.org/asf/pilotstories/impossibleturn/>

Next meeting is Wednesday March 3 usual 7:00 PM in Physics 333.
