**Message from the John & Donna Krenicki Director of Integrative Neuroscience:**

Its been a busy few weeks as we march towards the end of the semester. We are excited to announce that Dr. Jungil Moon will be joining our team on May 1<sup>st</sup> to get our IPSc Core Facility up and running. We'll distribute more information in advance of his arrival. A few additional announcements:

- We are interested in creating a database of collaborations with our friends at IU School of Medicine. If you have any joint projects or collaborations, please fill out our survey here: [https://purdue.qualtrics.com/jfe/form/SV\\_233TlfGlcYx1seF](https://purdue.qualtrics.com/jfe/form/SV_233TlfGlcYx1seF)
- We will once again run our summer seminar series – we're working on the schedule and will distribute it in the coming weeks.
- Keep an eye out for our RSVP request for the Neuroscience Retreat. Again, it will be the afternoon of May 17<sup>th</sup> and the morning of the 18<sup>th</sup> off campus.
- As most of you are aware, we report monthly to the President's office - we would welcome your contributions - tell us about your grants, awards, publications, and events so we can highlight them.
