

PURDUE INSTITUTE FOR INTEGRATIVE NEUROSCIENCE

Greetings! This week we continued the [Spring Brain and Spinal Cord Injury Seminar Series](#) with Dr. Edward L. Bartlett, Associate Professor, Biology and Biomedical Engineering. Please join us on April 18th for our next installment. On April 12th [Dr. Daniel Polley](#) from the Harvard Medical School presented on "Pathologically over-powered neural amplifiers: the neural circuit origins of disordered perception" as part of the PIIN sponsored Special Lectures in Neuroscience Series. We encourage the rest of the community to attend the upcoming public presentations on April 19th and May 3rd. This weekend PIIN will participate in the Spring Fest event by hosting two activities "Chicken Embryology" and "Mind-controlled model car". Thank you to all the volunteers who will help us this weekend.
