ATOMIC HOMEFRONT:

2023 WEST LAKE LANDFILL UPDATE
FROM "JUST MOMS STL"

TUESDAY APRIL 18TH

DLR 131, 298 NIMITZ DR
12-1:25 PM
REFRESHMENTS SERVED

What do you do when you realize there might be an explanation for the odd smells, illnesses and birth defects in animals and people where you live? That is the realization these two residents, and many in their community, had as they learned about the presence of leaching World War II-era radioactive wastes in a landfill a few miles away. This event brings two "Just Moms," Karen Nickel and Dawn Chapman, to campus to speak about their experiences and their actions, including founding "Just Moms STL" and their work to advocate for their communities as documented in the HBO film "Atomic Homefront."

ATTENDEES ARE ENCOURAGED TO SEE THE FILM PRIOR TO THIS LECTURE
