Small Groups

Are you looking for a small group of women that you can get together with and talk with about getting through graduate school? Then consider signing up for GMP's Small Groups. The Small Groups were formed based on feedback from members who wanted a smaller setting to get to know other women and get/provide support and strategies. The groups of 4-6 women will be organized by GMP based on availability to meet and interests, and then groups can choose to meet whenever and where ever they want. If this sounds like something you are interested in, visit this link to see more information. To be a part of Small Groups you must email wiepmm@ecn.purdue.edu by 5:00PM on Tuesday, September 4th. Your Small Groups will be sent out within a week after that!
