CAREER IN WATER RESOURCES

Monday, October 24, 2016
noon — 1pm ABE Room 301

Free food!

Jeff received his Bachelors in Biological Sciences in 1977 and M.S. in Environmental Science in 1981 from Indiana University, Bloomington, IN. Jeff has previously held the position of Staff Hydrologist and Water-Quality Specialist. Currently, he is Quality-Control Specialist for the National Water Quality Assessment Project. He has published many investigation and assessment reports for various streams of the United States .

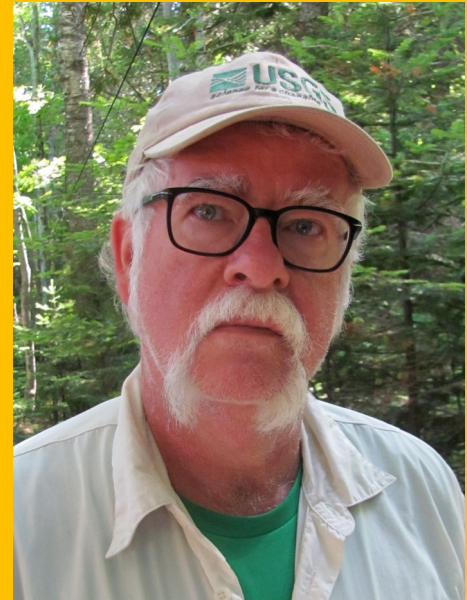

In this seminar, Jeff will discuss his career as a Hydrologist and how graduate students can prepare themselves professionally for a similar career.

Clear your doubts related to water resources, data availability, sampling methods and frequency

Presented by:

Jeffrey D. Martin

**Hydrologist,
