

Agricultural & Biological Engineering Graduate Students Association

Graduate School—A Balancing Act

Monday, November 14, 2016
noon — 1pm ABE Room 301

Free food!

Linda L. Hankins received her Bachelors in Mathematics Education from the University of Charleston, her masters in Counselling from the West Virginia Graduate College, and her Ph.D. in Counsellor Education from Ohio University. Linda has previously held the position of Assistant Professor of School Counselling at Marshall University, Texas A & M University. She has been Family Counselor, a Therapist, and a Math Teacher. She will discuss the importance of balance between one's personal and professional life daily practices for maintaining it as Graduate Student.

*Real time class activity that
can make your day more
productive than ever before*

Free food!
